

2018 CANADIAN Lawyer Webinars

Webinars are an innovative and interactive way to engage with legal professionals and employers. These online events deliver leads, an engaged audience and position your firm and its experts as thought leaders.

ⓧ Leads

Your sponsorship makes the webinar free to attend. In exchange, participants grant consent for you to contact them – our CASL-compliant wording means we can share their emails with the sponsor. It's a great way to generate a high number of qualified leads quickly for your sales team.

ⓧ Engaged audience

Everyone who signs up for your webinar is a hot prospect – they care enough about the topic to take time from their busy schedules to listen and participate.

ⓧ Thought leadership

Canadian Lawyer is a highly respected legal publication. Delivering your message to its loyal audience ties your brand and expertise to an information source that has been trusted for more than four decades.

ⓧ How it works

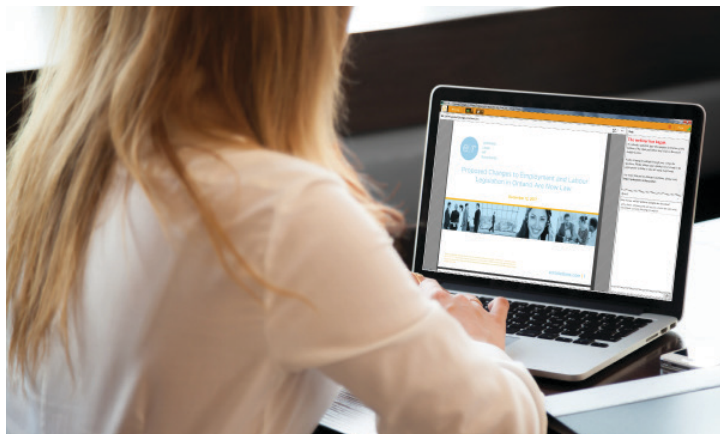

It's a turnkey solution. We provide the expertise, the platform, a dedicated webinar co-ordinator and our marketing expertise to get registrations from our audience. You can choose to have one of your experts deliver the webinar, or work with the editors of *Canadian Lawyer* on finding a topic and speaker.

ⓧ Time

Webinars run for one hour, comprised of a 45 minute presentation and a 15-minute Q&A session.

ⓧ Archiving

Webinars are recorded and archived on Thomson Reuters' Canada Professional Development Centre (cpdcentre.ca) for a minimum of six months.
