Citation: 2025 FC 1193

Ottawa, Ontario, July 4, 2025

PRESENT: The Honourable Mr. Justice Manson

BETWEEN:

DOUGLAS JOST

Plaintiff

and

THE ATTORNEY GENERAL OF CANADA

Defendant

ORDER AND REASONS

WHEREAS the Plaintiff and the Defendant have entered into a final Settlement Agreement dated March 21, 2025 in respect of the claims of the Plaintiff and Class Members against the Defendant;

AND WHEREAS this honourable Court approved the form of notice and plan for distribution of the notice of this motion by Order dated April 3, 2025 (the “Notice Order”);

AND UPON READING the Plaintiff’s and the Defendant’s motion records and written

AND UPON BEING ADVISED of the Defendant's consent to the form of the Order approving the Settlement Agreement and of the Defendant taking no position with respect to payment of the counsel fees and honorarium to the Representative Plaintiff;

AND UPON HEARING the motions made in writing and by oral submissions of counsel for the Plaintiff, and all interested parties, including any objections, written and oral;

AND UPON CONSIDERING the following:

I. Introduction

[1] Before this Court are two separate motions brought under sections 334.29 and 334.4 of the *Federal Courts Rules*, SOR/98-106 [Rules]. The first motion seeks the judicial approval of a class action settlement ("Settlement Agreement") while the second one asks the Court to approve the payment of the legal fees and disbursements sought by Class Counsel, Koskie Minsky LLP ("Class Counsel Fees"), and an honorarium to Mr. Douglas Jost, the Representative Plaintiff ("Honorarium").

[2] In 2017, the Representative Plaintiff brought the class action proceeding against the Defendant, the Attorney General of Canada, in relation to the alleged improper pension administration to individuals who served in the Canadian Armed Forces ("CAF") - Reserve Force ("Class Action"). After eight years of litigation, the Settlement Agreement, attached as Annex "A" to this Order, was reached and executed on March 21, 2025.

[3] For the reasons that follow, I will approve the Settlement Agreement, the Class Counsel Fees, and the Honorarium.

II. Background

A. *Procedural History*

[4] The Reserve Force Plan came into effect in 2007, providing pension benefits to Reserve Force Members payable upon release. This was the first pension plan created by Parliament in 40 years. Prior to its implementation, Canada was warned that its existing systems could not effectively manage the new pension plan. Upon implementation, CAF - Reserve Force Members faced substantial delays in receiving their pension entitlements and a backlog in pension administration processing.

[5] In 2011, the Auditor General released a report that concluded, among other things, that the Reserve Force Plan was introduced without adequate planning and without adequately dealing with risks that management had identified prior to the coming into force date for the plan. The backlog persisted until pension administration was transferred to Public Services and Procurement Canada in or around July 2016, who cleared the backlog by the end of 2017.

[6] Mr. Jost commenced this class action proceeding on June 30, 2017. The Statement of Claim alleged that Canada acted negligently and breached implied terms of contractual duties to the Plaintiff and the Class in the administration of the pension entitlements. While the pension

benefits were ultimately paid, the Plaintiff alleges that the delay in payment caused actionable damages.

[7] On November 4, 2019, this Court certified the action as a class proceeding.

[8] The Defendant appealed the certification order. On December 10, 2020, the Federal Court of Appeal held that the Statement of Claim disclosed reasonable causes of action but remitted the certification motion back to the motion judge for determination.

[9] The parties then reached an agreement on certification. The common issues that were certified concerned whether the Defendant breached its duty of care and contractual obligations owed to the Class Members in respect of the delayed pension payments. The following class was certified:

All individuals who:

- (a) served in the Canadian Armed Forces – Reserve Force;
- (b) released from the Canadian Armed Forces between March 1, 2007 and October 31, 2017;
- (c) were entitled to receive an Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit under the Regular Force Pension Plan or the Reserve Force Pension Plan; and
- (d) did not receive payment of the Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit for more than 60 days from the date of release.

[10] The trial was scheduled to begin on November 4, 2024.

[11] Parties were engaged in trial preparation up to the eve of trial. The Plaintiff had served and filed expert reports and Requests to Admit, and on September 9, 2024, brought a motion to amend the common issues. On September 17, 2024, the Defendant requested the trial be extended by five days.

[12] Shortly after a full-day judicial mediation held on October 7, 2024, the parties reached an agreement on aggregate quantum. On October 16, 2024, the parties agreed to a timetable for the return of the fee and settlement approval motions. In November 2024, Canada advised that it was unable to satisfy the previously agreed to timetable, and a new timetable was agreed upon, with the final settlement agreement to be reached by March 2025.

B. *Overview of the Settlement Agreement*

[13] The parties executed the final Settlement Agreement on March 21, 2025, subject to this Court's approval. Both parties agree that the settlement is fair, reasonable and in the best interests of the class as a whole.

[14] The key terms of the settlement include an all-inclusive payment of \$6,000,000. This all-inclusive amount includes payment for Class Members' compensation, which is dependent on the type of pension benefit that they received and the length of delay that they experienced from the date that the Class Member was released from the CAF to the date that the Class Member received their first pension payment.

[15] Class Members who were entitled to a monthly pension benefit, such as an Immediate Annuity, Annual Allowance and/or Bridge Benefit, would be compensated as follows:

- 1 to 90 Days: \$0
- 91 to 150 Days: \$400.00
- 151 to 365 Days: \$600.00
- 366 to 730 Days: \$800.00
- Over 730 days: \$1,200.00

[16] Class Members who were entitled to a Transfer Value - a lump sum payment representing the present value of future pension benefits – would be compensated as follows:

- 1 to 180 Days: \$0
- Over 181 Days: \$600.00

[17] The Settlement Agreement includes additional non-monetary benefits for the class including:

- a) payment without proof of harm or damages;
- b) a streamlined user-friendly claims process that is managed and paid for by Canada;
- c) payment by direct deposit to Class Members' accounts;
- d) direct notice of the Settlement Agreement to the Class provided by Canada at Canada's expense.

C. *Notices to Class Members*

[18] In accordance with this Court's Notice Order dated April 3, 2025, and as outlined in the Settlement Agreement, Canada took the following steps between April 22, 2025 and April 30, 2025 to provide Phase I Notice of the Settlement Agreement to Class Members:

- a) Posting on the DND website;
- b) Posting to DND/Canadian Armed Forces social media channels;
- c) Posting on Veteran Affairs Canada website;
- d) Posting on MyVAC Account;
- e) Distribution of Phase I Notice in Maple Leaf;
- f) Direct mailing to Class Members by e-mail and mail;

[19] The Settlement Agreement also includes a Phase II Notice plan to advise Class Members of Settlement Agreement approval and claims process, which includes the same steps as listed above, including direct notice.

III. Issues

[20] The following issues arise on these motions:

- A. Should the Court approve the Settlement Agreement as being fair, reasonable and in the best interest of the Class?
- B. Should the Court approve the requested fees as fair and reasonable in all the circumstances?

C. Should the Court approve the proposed honorarium of \$10,000 to the Representative Plaintiff?

IV. Analysis

A. *The Settlement Agreement*

(1) The test for the approval of class action settlements

[21] Rule 334.29 of the Rules provides that a class proceeding settlement must be approved by the Court. The legal test to be applied is whether the proposed settlement is “fair, reasonable and in the best interests of the class as a whole” (*Condon v Canada*, 2018 FC 522 [*Condon*] at paras 17-20; *Wenham v Canada (Attorney General)*, 2020 FC 588 [*Wenham*] at paras 48-51, aff’d 2020 FCA 186).

[22] While the function of the Court in reviewing a proposed class action settlement is not to reopen and enter into negotiations with litigants in the hope of improving the terms of the agreement, the Court has a responsibility to ensure that class members’ interests are not being sacrificed to the interests of class counsel (*Breckon v Cermaq Canada Ltd*, 2024 FC 225 [*Breckon*] at paras 29-30).

[23] In determining whether to approve a settlement, the Court may consider a number of factors, the weight of which will vary depending on the circumstances. The non-exhaustive list of factors includes:

- a) the terms and conditions of the settlement;
- b) the likelihood of success/recovery;

- c) the amount and nature of pre-trial activities, including investigation, assessment of evidence, production and discovery;
- d) the arm's length bargaining and information regarding dynamics of negotiations;
- e) the recommendation of class counsel;
- f) the communications with class members;
- g) any expression of support and objections;
- h) the presence of good faith and absence of collusion;
- i) the future expense and likely duration of litigation; and
- j) any other relevant factor or circumstance.

Condon at para 19; *Wenham* at para 50

[24] The Plaintiff asserts, and I agree, that the most important factors in this case are the terms of the Settlement Agreement, the likelihood of success/recovery and future expenses, inherent delays if the litigation were to continue, and the small number of objectors. Although the other factors are not explicitly addressed, I find they generally overlap with the factors discussed below, and also weigh in favour of approval of the Settlement Agreement.

(a) *Terms and Conditions of the Settlement*

[25] As outlined above, the key terms of the settlement include an all-inclusive payment of \$6,000,000. Class Members' settlement eligibility will be determined based on the length of delay that they experienced, calculated from the date that a Class Member was released from the CAF to the date that the Class Member received their pension benefit.

[26] The application and distribution process will be administered directly through Canada, which provides both a user-friendly process and meaningful benefits to Class Members. Most significantly, the claims process does not require Class Members to show economic loss, hardship, emotional distress or any other form of damages in order to receive compensation. There are also several advantages to Canada administering the settlement, including significant cost savings by not engaging a third-party, quicker payments since the eligibility requirements need to be determined by reference to Canada's internal pension records, Canada already has the infrastructure in place to process the information, and Canada has the ability to provide direct notice to Class Members at addresses that they are known to use. There is also no conflict inherent in Canada, as the Defendant, administering the settlement (see e.g., *Manuge v Canada*, 2024 FC 68 at paras 38, 47, and 59).

(b) *Likelihood of Success*

[27] The Plaintiff asserts that the anticipated challenges facing the Plaintiff at a common issues trial are a strong factor in favour of settlement approval. He identifies four significant litigation risks in this case: (i) whether there is an enforceable contract with respect to pension administration between members of the CAF and Canada; (ii) whether the duty of care concerns "core" policy, which is not justiciable or, alternatively, whether there are other policy reasons against imposing a duty of care; (iii) whether it is possible for the Class to recover interest on the delayed payment; and (iv) whether aggregate damages are available.

[28] I agree with Counsel for the Plaintiff that the claims raised were novel and the Plaintiff faced a great deal of uncertainty and risk regarding their success at a common issues trial. There

were serious questions as to whether there was an enforceable contract between veterans and Canada (*Canada (Attorney General) v Jost*, 2020 FCA 212 at para 60; *Knisley v Attorney General of Canada*, 2024 ONSC 3528 at paras 48 to 56 rev'd on other grounds, 2025 ONCA 185 at para 16) and whether the negligence claim concerned core policy decisions for which there is no liability (*R v Imperial Tobacco Canada Ltd*, 2011 SCC 42 at para 90). Additionally, even if the Plaintiff was successful on proving liability, as acknowledged by the Plaintiff, the complexity and individual nature of each of the Class Members' personal circumstances and records militated against this Court awarding aggregate damages. Absent aggregate damages, individuals would have to wait until the individual issues stage to be paid compensation and would have to make their claim on financial records that were more than ten years old.

[29] Given the late-stage settlement, Class Counsel engaged in detailed and cumbersome processes leading to the eve of trial, which included a contentious certification motion and appeal, voluminous document production that took place over three years, extensive discovery, and trial preparation. I am satisfied that Class Counsel was well-positioned to evaluate the risks of further litigation and conclude that settlement is in the best interests of the class (*Cannon v Funds for Canada Foundation*, 2017 ONSC 2670 at para 5).

(c) *Future Delays, including Individual Issue Claims Process*

[30] The Plaintiff asserts that had he continued with litigation, the potential compensation for Class Members would still be many years away. He expects it would take at least four to five years, accounting for the expectation that, given the novelty of the issues, a trial decision would take up to a year, there would be an appeal to the Federal Court of Appeal, and a further appeal

to the Supreme Court of Canada. Additionally, Class Members would be required to prove damages, which would increase the length of time for Class Members to receive compensation.

[31] Courts have recognized that immediate payment to class members is a factor in support of a settlement (*Condon* at para 58; *Breckon* at para 76). This is particularly true in this case, where Class Members can efficiently and simply apply for and receive their benefits through the streamlined application process.

(d) *The Small Number of Objections*

[32] After a direct and indirect notice campaign to Class Members, which is described above, approximately 0.2% of Class Members (19) filed objection forms. As noted by the Plaintiff, only 0.1% of the Class (9) actually object to the settlement, as the other objections did not disclose an objection. These objections fell under three general categories: (1) concerns over the compensation amounts; (2) concerns over Canada administering the settlement as a potential conflict of interest; and (3) a desire for a late-stage opt out.

[33] Given this minuscule number of objections and considering the objections raised, I am of the view that the Settlement Agreement should be approved. As this Court stated in *Manuge v Canada*, 2013 FC 341 [*Manuge*] at paragraph 25 and *Condon* at paragraph 70, “it would not serve the interests of the vast majority of the Class who did not object to the settlement to send the parties back into further discussions to address the concerns of a “handful” of objectors.” The Settlement Agreement is fair, reasonable and in the best interests of the Class as a whole, even if it is less than ideal for any particular Class Member (*Condon* at para 69).

(e) *Concerns Over Quantum*

[34] I agree with the Plaintiff that the level of compensation reflects the litigation risk and the time-value of money to the class, while accounting for the advanced age of most of the Class Members. In my view, the fact that the settlement does not require Class Members to prove any form of legally compensable loss, including emotional or mental distress, which may not be compensable here, is a significant benefit not considered by the objections based on quantum. The predictability and efficiency with which Class Members will receive the award are important considerations in this case that support the fairness and reasonableness of the Settlement Agreement. The Concerns over quantum do not constitute a reason to deny approval.

(2) Conclusion on the Settlement Agreement

[35] In this case, I am satisfied that the Court was presented with sufficient evidence to allow me to make an objective, impartial and independent assessment of the fairness of the proposed Settlement Agreement (*Condon* at para 38).

[36] Considering the above, I agree with the parties that the Settlement Agreement is fair, reasonable and in the best interests of the Class as a whole, and as such I hereby approve the Settlement Agreement.

B. *Class Counsel Fees and the Honorarium*

[37] Class Counsel request fees in the amount of \$1,910,807.77, plus HST, plus \$180,096.01 in unpaid disbursements and applicable taxes.

[38] The requested fee is just shy of 33% contingency fee agreed to in the Retainer Fee Agreement. Under the Retainer Fee Agreement, Class Counsel are entitled to be paid an amount equal to:

- a) any disbursements not already paid to Class Counsel by the Defendant as costs, plus applicable taxes, plus interest thereon; plus
- b) 33% of the “Recovery”, which is \$6,000,000 less disbursements (\$203,508.49), plus HST.

[39] According to the Retainer Fee Agreement, Class Counsel would be entitled to \$180,096.01 in disbursements plus \$23,412.48 in HST and \$1,912,842.20 of the Recovery, plus \$248,669.49 in HST.

[40] The jurisprudence has held that a percentage-based fee contained in a retainer agreement is presumed to be fair and should only be rebutted or reduced “in clear cases based on principled reasons” (*Condon* at para 85, citing *Cannon v Funds for Canada Foundation*, 2013 ONSC 7686 at para 8).

(1) The test for the approval of class counsel fees

[41] Rule 334.4 of the Rules provides that all payments to counsel flowing from a class proceeding must be approved by the Court. The overarching test applicable to assessing class counsel fees is that they have to be “fair and reasonable in all of the circumstances” (*Condon* at para 81; *Manuge* at para 28).

[42] The principal factors the Plaintiff asserts this Court should consider in assessing whether the counsel fees are reasonable are: (i) the results achieved for class members; (ii) the risks undertaken by class counsel; and (iii) the legal and factual complexities of the case (citing to *Condon* at para 83). Other factors the Court may consider include: the importance of the issues to the class; the skill and competence demonstrated by class counsel throughout the case; ability of the class to pay and the class's expectation of legal fees; the opportunity cost to class counsel in the expenditure of time in pursuit of the litigation; and fees in similar cases (*Breckon* at para 127; *Moushoom v Canada (Attorney General)*, 2023 FC 1739 at paras 83-84).

(a) *The Results Achieved*

[43] The terms of the Settlement Agreement have been outlined above. It includes an all-inclusive payment of \$6,000,000, which will provide compensation to Class Members according to their pension type and the delay that they experienced. The significant advantages of this agreement include the non-monetary benefits, including the streamlined distribution process. Additionally, the settlement has a mechanism to adjust Class Members' individual payments if settlement funds remain available after all individual payments are assessed.

(b) *The Risks and Degree of Responsibility Assumed by Class Counsel*

[44] As described above, this was a high risk and complex case. The liability claims were novel and difficult to prove, and the damages claim was similarly complex, likely requiring individual damage assessments at the end of the trial.

[45] For over eight years, Class Counsel bore all the risks of litigation without any guarantee of payment. Class Counsel pursued this action on a contingency fee basis, and accepted responsibility for all expenses and costs, without pursuing third-party litigation funding or partnering with any other firm as part of a consortium to prosecute the suit. As of May 15, 2025, Class Counsel incurred \$2,561,699.50 in unbilled fees, \$333,020.94 in HST, and \$203,508.49 in unbilled disbursements and taxes, for a total of \$3,098,228.93.

(c) *Expectations of the Class*

[46] The amount of fees sought by Class Counsel were disclosed as part of the Notice Plan implemented by the parties in April 2025. No objections to the legal fees sought have been received.

[47] The Representative Plaintiff also provided evidence that he was aware of the contingency fee rate in the retainer agreement and that he believes the fees Class Counsel are seeking are fair in all the circumstances.

(d) *Importance to the Class*

[48] Evidence provided showed that the Class consists of upwards of 9,610 veterans. Without this class proceeding and counsel's willingness to prosecute this action on a contingency basis, these class members would have had no meaningful way to obtain compensation.

(e) *Class Counsel's Experience*

[49] Class Counsel have been involved in dozens of class actions including in employment and employee benefits claims. They have a breadth of experience at all stages of class action procedure, from certification to trial to settlement.

(f) *Opportunity Costs to Class Counsel*

[50] Class counsel have expended significant time and resources in pursuing this litigation over the eight years. As of May 15, 2025, Class Counsel have spent 4,501.60 hours of lawyer, student and clerk time, with a value of \$2,561,699.50.

(g) *Fees in Similar Cases*

[51] The requested fee, which falls just short of the 33% contingency fee, falls into the high end of fees sought by class counsel (*Lin v Airbnb, Inc*, 2021 FC 1260 at para 102). The British Columbia Supreme Court found that that the typical range for contingency fees has been recently described as being "15% to 33% of the award or settlement" in British Columbia (*Lin* at para 102, citing *Kett v Kobe Steel, Ltd*, 2020 BCSC 1977 at para 54). Although the requested fee

is within the “high end” of what is considered reasonable, in the circumstances of this case, particularly with respect to the risk and uncertainty of the Plaintiff’s claims at trial, it is reasonable.

(2) Conclusion

[52] The legal fees sought by Class Counsel are consistent with the Retainer Fee Agreement and are fair and reasonable in light of the circumstances of this case, which are highlighted above.

C. *The Honorarium*

[53] Class Counsel also request an honorarium in the amount of \$10,000 to the Representative Plaintiff, Mr. Douglas Jost, for his contribution to the Class Members’ pursuit of access to justice.

[54] Honoraria to representative plaintiffs are awarded sparingly and requires “exceptional contribution that has resulted in success for the class” (*Breckon* at para 168). In determining whether the circumstances are exceptional, the Court may consider several factors, including: (i) active involvement in the initiation of the litigation and retainer of counsel; (ii) exposure to a real risk of costs; (iii) significant personal hardship or inconvenience in connection with the prosecution of the litigation; (iv) time spent and activities undertaken in advancing the litigation; (v) communication and interaction with other class members; and (vi) participation at various

stages in the litigation, including discovery, settlement negotiations and trial (*Breckon* at para 169, citing *Shah v LG Chem Ltd*, 2021 ONSC 396 at para 50).

[55] This Court has recently supported the nine reasons outlined by Justice Perell in the matter of *Doucet v The Royal Winnipeg Ballet*, 2022 ONSC 976 at paragraph 61 that culminate in the conclusion that, as a matter of legal principle, honorariums should no longer be granted in class proceedings:

1. Awarding a litigant on a *quantum meruit* basis for active and necessary assistance in the preparation or presentation of a case is contrary to the policy of the administration of justice that represented litigants are not paid for providing legal services. Lawyers not litigants are paid for providing legal services.
2. *A fortiori* awarding a represented litigant on a *quantum meruit* basis for active and necessary assistance in the preparation or presentation of a case is contrary to the policy of the administration of justice that self-represented litigants are not paid for providing legal services. Lawyers not litigants are paid for providing legal services.
3. Awarding a litigant for such matters as being a witness on examinations for discovery or for trial is for obvious reasons contrary to the administration of justice.
4. In a class action regime based on entrepreneurial Class Counsel, the major responsibility of a Representative Plaintiff is to oversee and instruct Class Counsel on such matters as settling the action. The court relies on the Representative Plaintiff to give instructions that are not tainted by the self-interest of the Representative Plaintiff receiving benefits not received by the Class Members he or she represents.
5. Awarding a Representative Plaintiff a portion of the funds that belong to the Class Members creates a conflict of interest. Class Members should have no reason to believe that their representative may be motivated by self-interest and personal gain in giving instructions to Class Counsel to negotiate and reach a settlement.
6. Practically speaking, there is no means to testing the genuineness and the value of the Representative Plaintiff's or Class

Member's contribution. Class Counsel have no reason not to ask for the stipend for their client being paid by the class members. The affidavits in support of the request have become *pro forma*. There is no cross-examination. There is no one to test the truth of the praise of the Representative Plaintiff. Class Members may not wish to appear to be ungrateful and ungenerous and it is disturbing and sometimes a revictimization for the court to scrutinize and doubt the evidence of the apparently brave and resolute Representative Plaintiff.

7. The practice of awarding an honourarium for being a Representative Plaintiff in a class action is tawdry. Using the immediate case as an example, awarding Class Counsel \$2.25 million of the class member's compensation for prosecuting the action, makes repugnant awarding Ms. Doucet \$30,000 of the class member's compensation for her contribution to prosecuting the action. The tawdriness of the practice of awarding a honourarium dishonours more than honours the bravery and contribution of the Representative Plaintiff.

8. As revealed by the unprecedented request made in the immediate case, the practice of awarding a honourarium to a Representative Plaintiff in one case is to create a repugnant competition and grading of the contribution of the Representative Plaintiff in other class actions.

9. The practice of awarding a honourarium in one case may be an insult to Representative Plaintiffs in other cases where lesser awards were made. For instance, in the immediate case, I cannot rationalize awarding Ms. Doucet \$30,000 for her inestimably valuable contribution to this institutional abuse class action with the \$10,000 that was awarded to the Representative Plaintiffs who brought access to justice to inmates in federal penitentiaries and who themselves experienced the torture of solitary confinement. I cannot rationalize awarding any honourarium at all when I recall that the Representative Plaintiff in the Indian Residential Schools institutional abuse class action did not ask for a honourarium and he did not even make a personal claim to the settlement fund. Having to put a price tag to be paid by class members on heroism is repugnant.

[56] Like Justice Gascon in *Breckon* at paragraphs 177 to 178, I also agree with those comments outlined above. Generally, honorariums should not be granted for work that is

expected of representative plaintiffs. However, where a plaintiff has gone above and beyond in their contributions on behalf of the class, amounting to exceptional circumstances in a particular case, an honorarium may be justified.

[57] As Class Counsel points out, Mr. Jost was a public advocate for Class Members before he started this class action, he retained Class Counsel, and he continued to advocate for the class for over eight years. He made significant contributions to the class action, having carried out real and significant work, including but not limited to: (i) preparing affidavits for certification; (ii) preparing for and attending cross-examinations on the affidavit in support of certification; (iii) preparing for and attending examinations for discovery in support of the trial; (iv) strategizing with class counsel from time to time over the years, including over settlement; and (v) preparing for and taking the case to the doorstep of trial, as a central witness.

[58] I agree with Class Counsel that Mr. Jost went beyond “merely doing [his] job as class representative.” Additionally, he endured personal hardship – including criticism in the media and through cross-examination and discovery – and took on those burdens so hundreds of other class members did not have to do it. I do not hesitate to find that his contributions were exceptional.

[59] Given the above, I find it is appropriate and fair to award Mr. Jost an honorarium in the amount of \$10,000.

V. Conclusion

[60] The Plaintiff's two motions are granted.

[61] The Settlement Agreement is approved as I find it fair, reasonable, and in the best interests of the class as a whole. The requested Class Counsel Fees and the Honorarium are also fair and reasonable and are approved.

3.03 Timing of Phase II Notice

- b) released from the Canadian Armed Forces between March 1, 2007 and October 31, 2017;
- c) were entitled to receive an Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit under the Regular Force Pension Plan or the Reserve Force Pension Plan; and

4.02 Class Members

The Parties agree that, for the purposes of this Settlement Agreement, Class Members are defined as all individuals who meet the Class Definition set out in the Certification Order and who did not opt-out of the Class Action prior to the expiry of the Opt-Out Period.

4.03 No Further Opt-Out

The Opt-Out Period for the Class Action ended on August 14, 2021. There shall be no further opt-out period, nor any opt-out relating to the validity of the Settlement Agreement.

SECTION FIVE: INDIVIDUAL PAYMENTS

5.01 Eligibility for Individual Payment – Monthly Benefit

Subject to **Section 5.05** and **Section 5.06**, each Class Member who received an Immediate Annuity, Annual Allowance and/or Bridge Benefit under the Regular Force Pension Plan or the Reserve Force Pension Plan, and who experienced a delay between the Date of Release and the Date of Payment, is eligible for an Individual Payment in accordance with the table below (the "Monthly Benefit Grid"):

1 to 90 Days	91 to 150 Days	151 to 365 Days	366 to 730 Days	Over 730 Days
\$0	\$400.00	\$600.00	\$800.00	\$1,200.00

Where:

- The reference to "1 to 90 Days" refers to the number of days between the Date of Release and the Date of Payment, not including the Date of Release but including the Date of Payment;
- The reference to "91 to 150 Days" refers to the number of days between the Date of Release and the Date of Payment, not including the Date of Release but including the Date of Payment;
- The reference to "151 to 365 Days" refers to the number of days between the Date of Release and the Date of Payment, not including the Date of Release but including the Date of Payment;
- The reference to "366 to 730 Days" refers to the number of days between the Date of Release and the Date of Payment, not including the Date of Release but including the Date of Payment;

- The reference to "Over 730 Days" refers to the number of days between the Date of Release and the Date of Payment, not including the Date of Release but including the Date of Payment.

For greater clarity, regardless of the Class Definition, a Class Member who received an Immediate Annuity, Annual Allowance and/or Bridge Benefit shall not receive an Individual Payment for a delay of 90 days or less between the Date of Release and the Date of Payment, not including the Date of Release but including the Date of Payment. The 90-day threshold acknowledges that the steps required prior to the payment of an Immediate Annuity, Annual Allowance and/or Bridge Benefit may take at least 90 days in the normal course of administering a pension plan.

5.02 Eligibility for Individual Payment – Transfer Value

Subject to **Section 5.05** and **Section 5.06**, each Class Member who received a Transfer Value under the Regular Force Pension Plan or the Reserve Force Pension Plan, and who experienced a delay between the Date of Release and the Date of Payment, is eligible for an Individual Payment in accordance with the table below (the "Transfer Value Grid"):

1 to 180 Days	Over 181 Days
\$0	\$600.00

Where:

- The reference to "1 to 180 Days" refers to the number of days between the Date of Release and the Date of Payment, not including the Date of Release but including the Date of Payment;
- The reference to "Over 181 Days" refers to the number of days between the Date of Release and the Date of Payment, not including the Date of Release but including the Date of Payment.

For greater clarity, regardless of the Class Definition, a Class Member who received a Transfer Value shall not receive an Individual Payment for a delay of 180 days or less between the Date of Release and the Date of Payment, not including the Date of Release but including the Date of Payment. The 180-day threshold acknowledges that the steps required prior to the payment of a Transfer Value may take at least 180 days in the normal course of administering a pension plan, as well as the fact that members of the Regular Force Pension Plan and the Reserve Force Pension Plan have up to one year from the Date of Release to exercise the option to receive a Transfer Value.

5.03 Date of Payment

In respect of an Immediate Annuity, Annual Allowance and/or Bridge Benefit that forms the basis for a Claim, the Date of Payment shall be deemed to be the "SSD Payment Date" identified in the system of record for pension administration (if the Date of Release is between March 1, 2007 and December 31, 2016, dates inclusive) or the "PSPC Earliest Transaction Date" identified in the system of record for pension administration (if the Date of Release is between January 1, 2017 and October 31, 2017, dates inclusive).

In respect of a Transfer Value that forms the basis for a Claim, the Date of Payment shall be deemed to be the date that is the "DND Benefit Approval Date" identified in the system of record for pension administration (if the Date of Release is between March 1, 2007 and June 3, 2016, dates inclusive) or the date that is the "PSPC Earliest Transaction Date" identified in the system of record for pension administration (if the Date of Release is between June 4, 2016 and October 31, 2017, dates inclusive).

If the data on the system of record for pension administration is not sufficient to determine the Date of Payment in accordance with the paragraphs above then the Date of Payment shall be deemed to be the date determined by the Administrator by way of a review of relevant records.

If the Date of Payment cannot be confirmed by way of a review of available electronic or paper records, or if such records are not readily accessible, then the benefit of the doubt shall accrue to the Claimant such that the Date of Payment shall be deemed to be the date identified on the Claim Form as the date when the Claimant received the Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit that forms the basis for the Claim.

5.04 Characterization of Payment

An Individual Payment to an Eligible Class Member is intended to compensate the Class Member for the experience of delay, not being an economic loss, in receiving an Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit under the Regular Force Pension Plan or the Reserve Force Pension Plan during the Class Period.

This Settlement Agreement shall not be read as providing any advice regarding the taxable nature of the Individual Payment.

5.05 Pro rata Reduction of Individual Payments if Settlement Exceeds Cap

If the Settlement Compensation Amount is not sufficient to pay the total aggregate amount of the Individual Payments assessed as owing to Eligible Class Members, the Individual Payments owing to Eligible Class Members shall be decreased on a *pro rata* basis such that the total aggregate amount of the Individual Payments

otherwise payable to Eligible Class Members does not exceed the Settlement Compensation Amount (the "Reduced Individual Payments"). Eligible Class Members shall then be eligible to receive only the Reduced Individual Payments. In the event that Reduced Individual Payments are to be paid, for each Eligible Class Member, the Reduced Individual Payment shall be calculated and prorated according to the following formula:

$$R = X \times \frac{Y}{Z}$$

Where: **R** = Reduced Individual Payment

X = Individual Payment assessed as owing to the Eligible Class Member under **Section 5.01** or **Section 5.02**

Y = Settlement Compensation Amount

Z = Total value of all assessed Individual Payments owing to Eligible Class Members under **Section 5.01** and **Section 5.02**, if no cap existed

5.06 Increase of Individual Payments if Compensation Threshold Not Met

If more than five hundred thousand dollars (\$500,000) remains of the Settlement Compensation Amount following the deduction of all Individual Payments assessed as owing to Eligible Class Members, the amount remaining of the Settlement Compensation Amount shall be distributed on a *pro rata* basis to Eligible Class Members up to a maximum of twenty percent (20%) of the Individual Payment (the "Gross Up Amount"), in accordance with the following formula:

$$A = B \times \frac{C}{D}$$

Where: **A** = Gross Up Amount

B = Amount of the Settlement Compensation Amount remaining following the deduction of the total aggregate amount of all Individual Payments assessed as owing to Eligible Class Members under **Section 5.01** and **Section 5.02**

C = Individual Payment assessed as owing to the Eligible Class Member under **Section 5.01** or **Section 5.02**

D = Total value of all assessed Individual Payments owing to Eligible Class Members under **Section 5.01** and **Section 5.02**

The Increased Individual Payment then owing to the Eligible Class Member in place

of the Individual Payment shall be the sum of the Individual Payment and the Gross Up Amount or, if the Gross Up Amount is more than twenty percent (20%) of the Individual Payment, the Individual Payment with a twenty percent (20%) increase.

Following payment of the Increased Individual Payments to Eligible Class Members, Canada shall not be required to pay any further residue from the Settlement Compensation Amount.

5.07 Payment if Deceased

The estate or Immediate Family Member of a Class Member who is deceased may receive an Individual Payment the Class Member would otherwise be eligible for had he or she not died, provided the Estate Executor or, if the estate has been wound up, an Immediate Family Member of the deceased, submits the Claim Form and establishes the person is the Estate Executor or, where the estate has been wound up, an Immediate Family Member and the beneficiary of the residue of the estate. For greater certainty, only one Individual Payment may be paid in respect of any Class Member.

5.08 Late Claims

The Administrator shall consider and accept Claims filed within the 30-day period following the end of the Claims Period, where the Claimant has provided a reason for the failure to provide the Claim within the time allotted. No Claim shall be accepted beyond the 30-day period following the end of the Claims Period for any reason.

5.09 No Assignment

No amount payable under this Settlement Agreement may be assigned, and any such assignment is null and void except as expressly provided for in this FSA.

5.10 Compensation Inclusive

For greater certainty, the amounts payable under this Settlement Agreement are inclusive of any other forms of damages, compensation or benefits, and all pre-judgment or post-judgment interest or other amounts that may be claimed by Class Members.

SECTION SIX: DUTIES OF THE ADMINISTRATOR

6.01 Duties of the Administrator

The Administrator shall conduct the Claims process as outlined in **Section 7** of the Settlement Agreement and more generally shall perform the following duties and responsibilities:

- (a) develop and implement tools and procedures for the intake of Claim Forms, including the processing of Claims;
- (b) establish procedures for assessing the eligibility of a Claimant to receive an Individual Payment and the amount of any Individual Payment;
- (c) establish procedures for issuing payments;
- (d) communicate decisions made in respect of Claims;
- (e) respond to enquiries and correspondence from Claimants regarding their Claims;
- (f) communicate with Claimants in either English or French, as the Claimant elects;

The Claims Period shall begin on the Implementation Date and shall continue for five (5) months with the possibility of a 30-day extension of time for late Claims, in accordance with **Section 5.08**.

7.02 Initial Review and Processing

The Administrator shall complete an initial review of the Claim Form to ensure all required information has been provided. If the Claim Form does not contain all required information to establish eligibility for an Individual Payment, the Administrator shall, within thirty (30) days of receipt of the Claim Form, contact the Claimant to request the missing information. The Claimant shall have an additional thirty (30) days from the date the Administrator contacts the Claimant to provide the missing information.

7.03 Eligibility Assessment

The Administrator shall determine if the Claimant is eligible to receive an Individual

Payment and, if so, the amount of the Individual Payment that the Class Member is eligible to receive under **Section 5.01** or **Section 5.02**, subject to the application of **Section 5.05** or **Section 5.06**.

As soon as possible after a Claim is received following the Implementation Date but no later than ninety (90) days after receiving a complete Claim Form, the eligibility determination of the Administrator shall be communicated to the Claimant.

If the Administrator determines that the amount of the Individual Payment assessed as owing to the Claimant is less than the Individual Payment claimed, the Administrator shall provide the Claimant with an explanation and copies of the record(s) upon which the determination was based, if available.

7.04 Timelines

The Administrator shall make best efforts to meet the timelines in this Section and shall inform the Parties and/or the Claimant, as appropriate, if a processing timeline cannot be met in respect of a particular Claim.

7.05 Determinations Final

The Administrator's determinations are final and binding as against the Class Members and Canada, and are subject to review only as provided for in this Settlement Agreement. For greater certainty, the Administrator's determinations are not subject to judicial review under section 18.1 of the *Federal Courts Act*, nor are they reviewable through any other means.

SECTION EIGHT: REDETERMINATION PROCESS

8.01 Right of Redetermination

If the Claimant disagrees with the determination of the Administrator regarding the eligibility of the Claimant to receive an Individual Payment or which payment from the Monthly Benefit Grid or the Transfer Value Grid the Claimant is eligible to receive, the Claimant may request a redetermination by the Administrator within thirty (30) days of receipt of the Administrator's determination. The request for redetermination shall be accompanied by copies of supporting records, if available.

8.02 Redetermination Assessment

Following the receipt of a request for redetermination, the Administrator shall consider whether to uphold the original determination or to issue a new determination on the Claim. Redeterminations shall be made by an individual other than the individual who made the initial eligibility determination.

As soon as possible after a request for redetermination is received but no later than

thirty (30) days following receipt of the request for redetermination, the redetermination of the Administrator shall be communicated to the Claimant and shall be accompanied by an explanation and copies of the record(s) upon which the redetermination was based, if available.

8.03 Timelines

The Administrator shall make best efforts to meet the timelines in this Section and shall inform the Parties and/or the Claimant, as appropriate, if a processing timeline cannot be met in respect of a particular Claim.

8.04 Redeterminations Final

The Administrator's redeterminations are final and binding as against the Class Members and Canada. For greater certainty, the Administrator's redeterminations are not subject to judicial review under section 18.1 of the *Federal Courts Act*, nor are they reviewable through any other means.

SECTION NINE: ISSUANCE OF PAYMENTS

9.01 Assessment of Total Amount Owing

Within thirty (30) days of the end of the Claims processing period, the Administrator shall assess the total aggregate amount of the Individual Payments owing to Eligible Class Members in order to determine whether Section 5.05 or Section 5.06 is engaged.

For greater clarity, the "end of the Claims processing period" refers to the point in time when all Claims and redetermination requests have been processed and the time for any further redetermination requests has expired.

9.02 Payment by Direct Deposit

Within sixty (60) days of the assessment described in **Section 9.01**, the Administrator shall issue Individual Payments, Reduced Individual Payments or Increased Individual Payments to Eligible Class Members or, in accordance with **Section 5.07**, estates or Immediate Family Members, by way of direct deposit or, in exceptional circumstances, by cheque.

9.03 Payment by Cheque

Individual Payments made by way of cheque shall be sent by registered mail to the address provided on the Claim Form.

9.04 Timelines

The Administrator shall make best efforts to meet the timelines in this Section and shall inform the Parties and/or the Claimant, as appropriate, if a processing timeline cannot be met in respect of a particular Claim. Such notice shall be provided prior to the expiry of the timeline to complete the relevant step.

SECTION TEN: RELEASE AND LIMITATIONS ON FURTHER LITIGATION

10.01 Full and Final Release

Upon approval by the Court of this Settlement Agreement, the Plaintiff and Class Counsel agree that the actions and the claims of the Class Members and the Class as a whole, are discontinued against Canada, without costs and with prejudice and such discontinuance shall be a defence and absolute bar to any subsequent action against Canada in respect of any of the claims or any aspect of the claims made in the Class Action relating to the subject-matter thereof, and are released against the Releasees, and particularly the Releasor(s) fully, finally and forever release and discharge the Releasees from any and all legal proceedings, actions, suits, proceedings, causes of action, common law, Quebec civil law and statutory liabilities, including for damages, contribution, indemnity, costs, expenses and interest which any Releasor may ever have had, may now have, or may in the future have, directly or indirectly arising from or in any way relating to or by way of any subrogated or assigned right or otherwise with respect to or in relation to any aspect of the Class Action ("Release").

Canada's obligations and liabilities under this Settlement Agreement constitute the consideration for the Release and other matters referred to in this Settlement Agreement and such consideration is in full and final settlement and satisfaction of any and all claims referred to in this Section and the Releasor(s) are limited to the benefits provided and compensation payable pursuant to this Settlement Agreement, in whole or in part, as their only recourse on account of such claims.

10.02 Discontinuation of Related Claims and Indemnification

The Releasor(s) agree not to commence or maintain any legal proceedings against any person, corporation or other entity, which might claim contribution or indemnity or otherwise against Canada in respect of the claims released in **Section 10.01**. It is agreed and understood that if any Releasor(s) commences or continues any legal proceeding, and Canada is added to the legal proceeding in any manner whatsoever, whether justified in law or not, Canada may, at Canada's sole discretion, require the initiating Releasor(s) to immediately discontinue the legal proceeding. If Canada exercises this discretion, the initiating Releasor(s) will be liable, on a full indemnity scale, to Canada for all legal costs incurred. The Release will operate conclusively as an estoppel and may be pleaded in the event any legal proceeding is brought or continued, as a complete defence and reply, and may be

relied upon to dismiss the legal proceeding on a summary basis, and no objection will be raised by the Releasor(s) that the other parties in the legal proceeding were not privy to the formation of this Release.

10.03 Dismissal/Discontinuance of the Class Action

The Plaintiff and Class Counsel agree that all necessary steps will be taken to obtain or effect a dismissal or discontinuance of the Class Action, without costs.

10.04 Cooperation with respect to Approval and Implementation

Upon execution of this Settlement Agreement, the Plaintiff and Class Counsel shall cooperate with Canada and make best efforts to obtain approval of this Settlement Agreement and general participation by Class Members in all aspects of this Settlement Agreement.

10.05 Undertaking

Class Counsel's firm and each counsel listed in **Schedule "I"** undertakes not to commence or assist or advise on the commencement or continuation of any actions or proceedings against Canada, and all current or former Ministers, employees, officials, departments, Crown agents, agencies and Crown servants, calculated to or having the effect of undermining this Settlement Agreement. Notwithstanding such undertaking, if counsel listed in **Schedule "I"** or another member of Class Counsel's firm commences or continues litigation against any person or persons who may claim contribution or indemnity from Canada in any way relating to or arising from any claim which is released by this Settlement Agreement, they shall be required to indemnify Canada in the event Canada is found liable in relation to such a claim. For greater certainty, the Parties agree that the above undertaking does not preclude Class Counsel or other members of their firm from representing Class Members in matters that are not released under the terms of this Settlement Agreement.

SECTION ELEVEN: SETTLEMENT APPROVAL

11.01 Settlement Approval

The Parties agree that they shall seek the Court's approval, in Toronto or other such place as the Parties may agree, of this Settlement Agreement in full and final settlement of all claims, as negotiated in this Settlement Agreement, and shall consent to the terms of an Approval Order, substantially in the form attached as **Schedule "A"**.

11.02 Approval of Motion Materials

The motion for approval of this Settlement Agreement shall be prepared by the Plaintiff and Class Counsel and must be approved by Canada prior to being filed with the Court. Such approval shall not be unreasonably withheld. Canada shall advise Class Counsel of any concerns within seven (7) days of receiving the draft motion material.

For greater certainty, Canada shall not have any right to review or approve the motion for approval of Class Counsel Fees.

SECTION TWELVE: REVERSION OF FUNDS

12.01 Reversion of Funds

13.01 Legal Fees

Within sixty (60) days of the Implementation Date, Canada shall pay to Class Counsel its legal fees and disbursements, together with all applicable taxes, in an amount not to exceed two and a half million dollars (\$2,500,000). Class Counsel agree that no amounts shall be deducted from any Individual Payments, Reduced Individual Payments or Increased Individual Payments made to Eligible Class Members on account of legal fees or disbursements.

13.02 Honorarium for Representative Plaintiff

If an honorarium is sought for the representative Plaintiff, any amount approved shall be added to the amount of the legal fees and disbursements assessed as owing to Class Counsel, together with all applicable taxes, such that the total of all amounts shall not exceed two and a half million dollars (\$2,500,000).

13.03 Approval of Legal Fees

Class Counsel shall seek the Court's approval of the amount of legal fees, disbursements and, if applicable, an honorarium for the representative Plaintiff contemporaneously with the approval of this Settlement Agreement. Canada shall take no position on the fee approval motion without leave of the Court.

13.04 Provision of Legal Services to Class Members

In consideration of the payment for legal fees in **Section 13.01**, Class Counsel agree to provide reasonable assistance to Claimants or Class Members throughout the Claims process at no additional charge and are precluded from seeking any further payment from Canada, the Claimants or Class Members on account of legal fees or for any other reason, including appeals or applications before the Court or the Federal Court of Appeal, for work performed in relation to this Settlement Agreement.

13.05 Pre-Approval of Fees Required

The Parties shall request that the Court order that no fees may be charged to Eligible Class Members in relation to submitting a Claim under this Settlement Agreement by counsel not listed on **Schedule "I"** without prior approval of the Court.

SECTION FOURTEEN: CONDITIONS AND TERMINATIONS

14.01 Settlement Agreement is Conditional

This Settlement Agreement shall not be effective unless and until it is approved by the Court and confirmed on appeal or, if no appeal is taken, the time for such an appeal has expired, and if such approval is not granted, this Settlement Agreement will thereupon be terminated and none of the Parties will be liable to any of the other Parties hereunder for such termination.

14.02 Amendments

Except as expressly provided in this Settlement Agreement, no amendment or supplement may be made to the provisions of this Settlement Agreement, and no restatement of this Settlement Agreement may be made unless agreed to by the Parties in writing and any such amendment, supplement or restatement is approved by the Court without any material difference.

SECTION FIFTEEN: CONFIDENTIALITY

15.01 Use of and Confidentiality of Records held by Canada

Nothing in this agreement shall restrict the retention of documents held by Canada. All records received by Canada in relation to the settlement shall be handled in accordance with the federal law concerning government records.

15.02 Use of and Confidentiality of Records held by Class Counsel

Any information provided, created or obtained while implementing this Settlement Agreement, whether written or oral, shall be kept confidential by Class Counsel, and shall not be used for any purpose other than the implementation of this Settlement Agreement unless otherwise agreed by the Parties or as otherwise provided by law.

15.03 Confidentiality of Negotiations

Except as may otherwise be agreed between the Parties, or as may be required by law, the undertaking of confidentiality as to the discussions and all communications, whether written or oral, made in and surrounding the negotiations leading to the Settlement Agreement continues in force and in perpetuity, notwithstanding the termination or voiding of this Settlement Agreement.

SECTION SIXTEEN: GENERAL**16.01 Applicable Law**

This Settlement Agreement shall be governed by and construed in accordance with the laws of the province of Ontario.

16.02 No Admission of Liability

This Settlement Agreement is not to be construed as an admission of liability by Canada.

16.03 Entire Agreement

This Settlement Agreement constitutes the entire agreement among the Parties with respect to the subject-matter hereof and cancels and supersedes any prior or other understandings or agreements between or among the Parties. There are no representations, warranties, terms, conditions, undertakings, covenants or collateral agreements, express, implied or statutory between or among the Parties with respect to the subject-matter hereof other than as expressly set forth or referred to in this Settlement Agreement.

16.04 Counterparts

This Settlement Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original and all of which, taken together, shall be deemed to constitute one and the same Settlement Agreement, and a facsimile or electronic signature shall be deemed to be an original signature for the purposes of executing the Settlement Agreement.

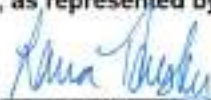

16.05 Language

Class Counsel shall arrange and pay for a French language version of this Agreement and all Schedules, to be reviewed by Canada. The French language version shall not be required at the time of execution of the English language version of this Settlement Agreement. To the extent that there are any inconsistencies between the English and French versions of this Settlement Agreement, the Parties acknowledge and agree that the English version was the original version as executed.

C. CONTENT OF NOTICES

Wherever possible, Canada shall replicate the content of the Court-approved notices.

Canada may make minor amendments relating to the formatting, size or placement of the text to the Court-approved notices to suit the platform on which the notices will be posted. If significant changes to the form of the notices are contemplated, including revisions to the text of the notices, Canada will first consult with Class Counsel before posting.

**SCHEDULE "D" – NOTICE OF SETTLEMENT APPROVAL HEARING AND
OBJECTION PROCESS**

[SHORT FORM NOTICE]

Did you experience a delay in receiving a pension benefit under the Reserve Force Pension Plan or the Regular Force Pension Plan?

A proposed settlement may affect you. Please read this notice carefully.

The Federal Court authorized this notice. This is not a solicitation from a lawyer.

The federal government of Canada ("Canada") and Douglas Jost (the "Representative Plaintiff") have reached a proposed settlement in a class action lawsuit.

WHAT IS THIS CLASS ACTION ABOUT?

The class action involves delays in payment of certain pension benefits under the Reserve Force Pension Plan and the Regular Force Pension Plan between 2007 and 2017. If you served in the Canadian Armed Forces ("CAF") with at least some of that service in the Reserve Force and you were released from the CAF between 2007 and 2017, you may be entitled to a payment under the settlement.

The Federal Court certified the class action on April 16, 2021, which means that it is permitted to proceed to trial as a class action. The case has not yet gone to trial and there has been no judicial decision made on the merits of the lawsuit.

The Representative Plaintiff is represented by Koskie Minsky LLP ("Class Counsel").

The proposed settlement must first be approved by the Federal Court before any compensation is made available to members of the Class.

WHO IS INCLUDED?

The Federal Court has defined the Class as all individuals who:

- (a) served in the Canadian Armed Forces – Reserve Force;
- (b) released from the Canadian Armed Forces between March 1, 2007 and October 31, 2017;
- (c) were entitled to receive an Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit under the Regular Force Pension Plan or the Reserve Force Pension Plan; and

(d) did not receive payment of the Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit for more than 60 days from the date of release.

In the decision certifying the lawsuit as a class proceeding, the Federal Court set a deadline to “opt out” of the class action. The “opt out” period expired on August 14, 2021. There will be no further opt-out period.

The proposed settlement applies to all individuals who meet the criteria set out above and who did not opt out of the Class (the “Class Members”).

Estates of Class Members may also be eligible to receive a payment under the proposed settlement. A claim must be filed by the estate executor or, if the estate has been wound up, by an immediate family member.

If the proposed settlement is approved, all Class Members except those who validly opted out will be bound by the Court order approving the settlement and, in accordance with the terms of the proposed settlement, will not have the right to sue Canada for alleged harm caused by the delayed payment of pension benefits under the Reserve Force Pension Plan or the Regular Force Pension Plan during the Class Period from March 1, 2007 to October 31, 2017.

WHAT DOES THE SETTLEMENT PROVIDE?

If approved, the proposed settlement provides compensation for delays in the payment of certain pension benefits under the Reserve Force Pension Plan or the Regular Force Pension Plan during the Class Period from March 1, 2007 to October 31, 2017. The payments under the proposed settlement are intended to compensate Class Members for the experience of delay rather than any economic loss.

The amount of the compensation to be paid to any individual Class Member depends on the type of pension benefit paid to the Class Member and the length of the delay in payment. Class Members who received a Monthly Benefit (Immediate Annuity, Annual Allowance and/or Bridge Benefit) may be eligible to receive a payment in accordance with the following payment schedule:

1 to 90 Days	91 to 150 Days	151 to 365 Days	366 to 730 Days	Over 730 Days
\$0	\$400.00	\$600.00	\$800.00	\$1,200.00

Class Members who received a Transfer Value may be eligible to receive a payment in accordance with the following payment schedule:

1 to 180 Days	Over 181 Days
\$0	\$600.00

Under the proposed settlement, Transfer Values are treated differently from Monthly Benefits due to their distinct eligibility criteria and terms of payment under the applicable legislation, the *Canadian Forces Superannuation Act*, RSC 1985, c C-17, and associated regulations.

Class Counsel are also seeking approval of legal fees and disbursements in the amount of **XX**, together with applicable taxes. The legal fees will be paid by Canada in addition to the compensation paid to eligible Class Members. The Federal Court will decide if the amounts requested are fair and reasonable.

Further details may be found in the proposed Settlement Agreement. A copy of the proposed Settlement Agreement is available online at: <https://kmlaw.ca/cases/canada-forces-delayed-pension-class-action/>

HOW DO I MAKE A CLAIM?

The proposed settlement must be approved by the Federal Court. If it is approved, you may apply for compensation under the settlement.

To make a claim, you must complete a Claim Form and send it to the Department of National Defence during the Claims Period. More information on how to make a claim will be available in a further notice if the proposed settlement is approved.

WHAT IF I AGREE OR DO NOT AGREE WITH THE PROPOSED SETTLEMENT?

Class Members may participate in the settlement approval hearing. If you do not agree with the proposed settlement, you have two options:

1. **Object to the proposed settlement in writing:** You may mail or email a letter that includes your name, address and telephone number, and explain why you object to the proposed settlement. You may also fill out an Objection Form which can be found at: <https://kmlaw.ca/cases/canada-forces-delayed-pension-class-action/>. You must mail or email your letter or Objection Form on or before **May 15, 2025** to: **CAF Pension Benefits Class Action**, c/o Koskie Minsky LLP, 20 Queen Street West, Suite 900, Box 52, Toronto Ontario, M5H 3R3; or to: cafensions@kmlaw.ca.

2. **Object to the settlement in person:** You may attend the Federal Court at 180 Queen Street West, Toronto ON, on **June 18, 2025 at 9:30 a.m.**, to participate in the settlement approval hearing and voice your concerns. WHAT IF I DO NOTHING?

If you are a Class Member who did not opt out of the Class Action, you will be bound by the terms of the settlement if it is approved.

GETTING MORE INFORMATION

22. How do I get more information?

BASIC INFORMATION

1. Why did I get this notice?

The Federal Court authorized this notice to inform you about a proposed settlement and your options before the Court decides whether to approve the proposed settlement. This notice explains the lawsuit, the proposed settlement, and your legal rights.

2. What is a class action?

In a class action, one or more individuals referred to as the "representative plaintiff(s)" sue on behalf of a group of people who have similar claims. The group of individuals with similar claims are called a "class" or "class members." The Court resolves the similar claims for all class members, except for those who clearly exclude themselves from the class action lawsuit.

3. What is this class action lawsuit about?

The class action claims that damages are owing due to the delayed payment of certain pension benefits under the Reserve Force Pension Plan and the Regular Force Pension Plan between 2007 and 2017, following the establishment of a pension plan for members of the Reserve Force. The payments under the proposed settlement are intended to compensate Class Members for the experience of delay rather than any economic loss.

The Representative Plaintiff, represented by Koskie Minsky LLP ("Class Counsel"), commenced the lawsuit in 2017. Canada is named as the Defendant in the case.

4. Has there been a trial?

The Federal Court certified the class action on April 16, 2021, which means that it is permitted to proceed to trial as a class action. A trial was scheduled to start on November 4, 2024 but the trial dates were adjourned because a proposed settlement had been reached. As a result, the case has not yet gone to trial and there has been no judicial decision made on the merits of the lawsuit.

5. Why is there a proposed settlement?

The Representative Plaintiff and Canada have agreed to a proposed settlement.

By agreeing to the proposed settlement, the parties avoid the costs and uncertainty of a trial and potential delays in obtaining judgment, including from potential appeals, and Class Members receive the compensation described in the proposed settlement agreement using a streamlined claims process.

The Representative Plaintiff and Class Counsel believe the proposed settlement is in the best interests of all Class Members.

WHO IS INCLUDED IN THE PROPOSED SETTLEMENT?

6. Who is included in the proposed settlement?

The Class includes all individuals who:

- (a) served in the Canadian Armed Forces – Reserve Force;
- (b) released from the Canadian Armed Forces between March 1, 2007 and October 31, 2017;
- (c) were entitled to receive an Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit under the Regular Force Pension Plan or the Reserve Force Pension Plan; and
- (d) did not receive payment of the Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit for more than 60 days from the date of release.

In the decision certifying the lawsuit as a class proceeding, the Federal Court set a deadline to “opt out” of the class action. The “opt out” period expired on August 14, 2021. The proposed settlement applies to all individuals who meet the criteria set out above and who did not opt out of the class action (the “Class Members”).

Estates of Class Members may also be eligible to receive a payment under the proposed settlement. A claim must be filed by the estate executor or, if the estate has been wound up, by an immediate family member.

If the proposed settlement is approved, all Class Members except those who validly opted out will be bound by the terms of settlement and will be deemed to have released Canada from liability in relation to the subject-matter of the lawsuit.

This means that Class Members will not have the right to sue Canada for alleged harm caused by the delayed payment of certain pension benefits under the Reserve Force Pension Plan or the Regular Force Pension Plan during the Class Period from March 1, 2007 to October 31, 2017.

7. What if I am not sure whether I am included in the proposed settlement?

If you are not sure whether you are included in the proposed settlement, you may call toll-free at 1 (800) 513-6344 or visit <https://kmlaw.ca/cases/canada-forces-delayed-pension-class-action/>.

PROPOSED SETTLEMENT

8. What does the proposed settlement provide?

If approved, the proposed settlement provides compensation for delays in the payment of certain pension benefits under the Reserve Force Pension Plan and the Regular Force Pension Plan during the Class Period from March 1, 2007 to October 31, 2017.

The amount of the compensation to be paid to any individual Class Member depends on the type of pension benefit paid to the Class Member and the length of the delay in payment. Class Members who received a Monthly Benefit (Immediate Annuity, Annual Allowance and/or Bridge Benefit) may be eligible to receive a payment in accordance with the following payment schedule:

1 to 90 Days	91 to 150 Days	151 to 365 Days	366 to 730 Days	Over 730 Days
\$0	\$400.00	\$600.00	\$800.00	\$1,200.00

Class Members who received a Transfer Value may be eligible to receive a payment in accordance with the following payment schedule:

1 to 180 Days	Over 181 Days
\$0	\$600.00

Under the proposed settlement, Transfer Values are treated differently from Monthly Benefits due to their distinct eligibility criteria and terms of payment under the applicable legislation, the *Canadian Forces Superannuation Act*, RSC 1985, c C-17, and associated regulations.

Further details may be found in the proposed Settlement Agreement. A copy of the proposed Settlement Agreement is available online at: <https://kmlaw.ca/cases/canada-forces-delayed-pension-class-action/>.

9. What am I giving up in the proposed settlement?

Once the proposed settlement becomes final, Class Members will give up their rights to sue Canada for the claims being resolved by the settlement. If you are a Class Member then you will be "releasing" Canada, which means you cannot institute another lawsuit against Canada for anything related to the delayed payment of certain pension benefits under the Reserve Force Pension Plan or the Regular Force Pension Plan during the Class Period from March 1, 2007 to October 31, 2017.

The proposed Settlement Agreement describes the released claims with specific descriptions, so please read it carefully. If you have any questions about what this means, you may contact Class Counsel or your own lawyer. You are responsible for paying your own lawyer's fees.

A copy of the proposed Settlement Agreement is available online at: <https://kmlaw.ca/cases/canada-forces-delayed-pension-class-action/>.

10. May I remove myself from the proposed settlement?

In the decision certifying the lawsuit as a class proceeding, the Federal Court set a deadline of August 14, 2021 to "opt out" of the class action. A separate notice campaign was approved by the Federal Court to notify potential Class Members of the opt-out deadline. There will be no further opt-out period.

Therefore, Class Members who did not validly opt out of the class action by August 14, 2021 will be bound by the proposed settlement if it is approved by the Federal Court.

HOW TO RECEIVE A PAYMENT IF THE PROPOSED SETTLEMENT IS APPROVED

11. How will I receive a payment?

To request compensation under the Settlement Agreement, all Class Members must complete and submit a Claim Form.

Claims will be reviewed and verified by the Department of National Defence acting as the Administrator of the Settlement Agreement. Eligible Class Members will not need to testify in Court. Once the claim is reviewed and verified, eligible Class Members will receive compensation as soon as reasonably practicable.

More information about the claims process, including the Claim Form, will be provided in a further notice if the proposed settlement is approved. The Federal Court must first decide whether to approve the proposed settlement and any appeals from the Federal Court's decision must be resolved. If there are appeals, it could take time for them to resolve. Please be patient.

12. How will payments be calculated?

The Administrator will review your Claim Form and determine if you qualify for a payment. If you do, the Administrator will determine the amount of your payment based on the criteria described in the Settlement Agreement.

13. What if I disagree with the decision?

If you wish to dispute the decision, you may request that the decision be reconsidered.

14. What if my claim is denied?

If your claim is denied, you will receive a notice of the decision. There will be a process to request a reconsideration of the denial decision, with more information to be provided in a further notice if the settlement is approved.

THE LAWYERS REPRESENTING YOU

15. Who is Class Counsel?

The lawyers representing the Representative Plaintiff and Class Members are Koskie Minsky LLP. If you wish to be represented by or receive advice from another lawyer, you may hire a lawyer at your own expense.

16. Do I need to pay Class Counsel anything?

No. Class Counsel are seeking approval of legal fees and disbursements in the amount of **XX**, together with applicable taxes. The legal fees will be paid by Canada in addition to the compensation paid to eligible Class Members. Class Counsel will not be paid unless the Federal Court finds that the proposed legal fees are fair and reasonable.

You will not need to pay any legal fees out of your own pocket for services from Class Counsel relating to the claims process. If a Class Member retains another lawyer or representative, the Class Member must pay the legal fees, disbursements and taxes for their services.

A settlement between the federal government of Canada ("Canada") and Douglas Jost (the "Representative Plaintiff") has been approved by the Court.

The class action lawsuit commenced by the Representative Plaintiff alleged that damages were owing due to the delayed payment of certain pension benefits under the Reserve Force Pension Plan or the Regular Force Pension Plan between 2007 and 2017. If you served in the Canadian Armed Forces ("CAF") with at least some of that service in the Reserve Force and you released from the CAF between 2007 and 2017, you may be entitled to a payment under the settlement.

WHO IS INCLUDED?

The settlement applies to all individuals, referred to as "Class Members", who did not "opt out" of the class action and who meet the following criteria:

- (a) served in the Canadian Armed Forces – Reserve Force;
- (b) released from the Canadian Armed Forces between March 1, 2007 and October 31, 2017;
- (c) were entitled to receive an immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit under the Regular Force Pension Plan or the Reserve Force Pension Plan; and
- (d) did not receive payment of the immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit for more than 60 days from the date of release.

In the decision certifying the lawsuit as a class proceeding, the Federal Court set a deadline to "opt out" of the class action. The "opt out" period expired on August 14, 2021. There will be no further opt-out period.

Estates of Class Members may also be eligible to receive a payment under the proposed settlement. A claim must be filed by the estate executor or, if the estate has been wound up, by an immediate family member.

All Class Members except those who validly opted out will be bound by the Settlement Agreement and will be deemed to have "released" Canada from liability for alleged harm caused by the delayed payment of pension benefits under the Reserve Force Pension Plan or the Regular Force Pension Plan during the Class Period from March 1, 2007 to October 31, 2017.

WHAT DOES THE SETTLEMENT PROVIDE?

The settlement provides compensation for delays in the payment of certain pension benefits under the Reserve Force Pension Plan or the Regular Force Pension Plan during the Class Period from March 1, 2007 to October 31, 2017. The payments under the Settlement Agreement are intended to compensate Class Members for the experience of delay rather than any economic loss.

The amount of the compensation to be paid to any individual Class Member depends on the type of pension benefit paid to the Class Member and the length of the delay in payment (i.e., the number of days between the Class Member's date of release and the date of payment). Class Members who received a Monthly Benefit (Immediate Annuity, Annual Allowance and/or Bridge Benefit) may be eligible to receive a payment in accordance with the following payment schedule:

1 to 90 Days	91 to 150 Days	151 to 365 Days	366 to 730 Days	Over 730 Days
\$0	\$400.00	\$600.00	\$800.00	\$1,200.00

Class Members who received a Transfer Value may be eligible to receive a payment in accordance with the following payment schedule:

1 to 180 Days	Over 181 Days
\$0	\$600.00

Under the settlement, Transfer Values are treated differently from Monthly Benefits due to their distinct eligibility criteria and terms of payment under the applicable legislation, the *Canadian Forces Superannuation Act*, RSC 1985, c C-17, and its associated regulations.

Further details may be found in the Settlement Agreement. A copy of the Settlement Agreement is available online at: <https://kmiaw.ca/cases/canada-forces-delayed-pension-class-action/>.

GETTING MORE INFORMATION

18. How do I get more information?

BASIC INFORMATION

1. Why did I get this notice?

The Federal Court authorized this notice to provide you with information about how a settlement may affect you. This notice explains the underlying lawsuit, the settlement and your legal rights.

2. What is a class action?

In a class action, one or more individuals referred to as the "representative plaintiff(s)" sue on behalf of a group of people who have similar claims. The group of individuals with similar claims are called a "class" or "class members." The Court resolves the similar claims for all class members, except for those who clearly exclude themselves from the class action lawsuit.

3. What is this class action lawsuit about?

The class action claims that damages are owing due to the delayed payment of certain pension benefits under the Reserve Force Pension Plan and the Regular Force Pension Plan between 2007 and 2017, following the establishment of a pension plan for members of the Reserve Force.

The Representative Plaintiff, represented by Koskie Minsky LLP ("Class Counsel"), commenced the lawsuit in 2017. Canada is named as the Defendant in the case.

4. Has there been a trial?

The Federal Court certified the class action on April 16, 2021, which means that it was permitted to proceed to trial as a class action. The case has not gone to trial and there has been no judicial decision made on the merits of the lawsuit.

5. Why is there a settlement?

On **[insert date]**, the Court approved a settlement between the Representative Plaintiff and Canada. By agreeing to the settlement, the parties avoid the costs and uncertainty of a trial and potential delays in obtaining judgment, and Class Members receive the compensation described in the settlement agreement. The Court found that the settlement is fair and reasonable, and in the best interests of all Class Members.

WHO IS INCLUDED IN THE SETTLEMENT?

6. Who is included in the proposed settlement?

The settlement applies to all individuals, referred to as "Class Members", who did not "opt out" of the class action and who meet the following criteria:

- (a) served in the Canadian Armed Forces – Reserve Force;
- (b) released from the Canadian Armed Forces between March 1, 2007 and October 31, 2017;
- (c) were entitled to receive an Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit under the Regular Force Pension Plan or the Reserve Force Pension Plan; and
- (d) did not receive payment of the Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit for more than 60 days from the date of release.

In the decision certifying the lawsuit as a class proceeding, the Federal Court set a deadline to “opt out” of the class action. The “opt out” period expired on August 14, 2021. There will be no further opt-out period.

Estates of Class Members may also be eligible to receive a payment under the proposed settlement. A claim must be filed by the estate executor or, if the estate has been wound up, by an immediate family member.

All Class Members except those who validly opted out are bound by the settlement and will be deemed to have “released” Canada in relation to the subject-matter of the lawsuit. This means that Class Members will not have the right to start another lawsuit against Canada for alleged harm caused by the delayed payment of pension benefits under the Reserve Force Pension Plan or the Regular Force Pension Plan during the class period from March 1, 2007 to October 31, 2017.

7. What if I am not sure whether I am included in the settlement?

If you are not sure whether you are included in the settlement, you may call toll-free at **[insert phone number]** or visit <https://kmlaw.ca/cases/canada-forces-delayed-pension-class-action/> or **[insert link to DND site]**.

SETTLEMENT

8. What does the settlement provide?

The settlement provides compensation for delays in the payment of certain pension benefits under the Reserve Force Pension Plan and the Regular Force Pension Plan during the class period from March 1, 2007 to October 31, 2017. The payments under the Settlement Agreement are intended to compensate Class Members for the experience of delay rather than any economic loss.

The amount of the compensation to be paid to any individual Class Member depends on the type of pension benefit paid to the Class Member and the length of the delay in payment (*i.e.*, the number of days between the Class Member's date of release and the date of payment). Class Members who received a Monthly Benefit (Immediate Annuity, Annual Allowance and/or Bridge Benefit) may be eligible to receive a payment in accordance with the following payment schedule:

1 to 90 Days	91 to 150 Days	151 to 365 Days	366 to 730 Days	Over 730 Days
\$0	\$400.00	\$600.00	\$800.00	\$1,200.00

Class Members who received a Transfer Value may be eligible to receive a payment in accordance with the following payment schedule:

1 to 180 Days	Over 181 Days
\$0	\$600.00

Under the settlement, Transfer Values are treated differently from Monthly Benefits due to their distinct eligibility criteria and terms of payment under the applicable legislation, the *Canadian Forces Superannuation Act*, RSC 1985, c C-17, and its associated regulations.

Further details may be found in the Settlement Agreement. A copy of the Settlement Agreement is available online at: <https://kmiaw.ca/cases/canada-forces-delayed-pension-class-action/>.

9. What am I giving up in the settlement?

In exchange for being entitled to access the compensation scheme under the settlement, Class Members give up their rights to continue this class action and to start another lawsuit against Canada for the claims being resolved by the settlement.

If you are a Class Member then you are "releasing" Canada, which means you cannot sue Canada for anything related to the delayed payment of certain pension benefits under the Reserve Force Pension Plan or the Regular Force Pension Plan during the Class Period from March 1, 2007 to October 31, 2017.

The Settlement Agreement describes the released claims with specific descriptions, so please read it carefully. If you have any questions about what this means, you may contact Class Counsel or your own lawyer. You are responsible for paying your own lawyer's fees.

10. May I remove myself from the settlement?

In the decision certifying the lawsuit as a class proceeding, the Federal Court set a deadline of August 14, 2021 to "opt out" of the class action. A separate notice campaign was approved by the Federal Court to notify potential Class Members of the opt-out deadline. There will be no further opt-out period.

Therefore, Class Members who did not validly opt out of the class action by August 14, 2021 are bound by the settlement.

HOW TO RECEIVE A PAYMENT

11. How will I receive a payment?

To request compensation under the Settlement Agreement, all Class Members must complete and submit a Claim Form. Claims will be reviewed and verified by the Department of National Defence acting as the Administrator of the Settlement Agreement. Class Members will not need to testify in Court. Once the Claim is reviewed and verified, eligible Class Members will receive compensation as soon as reasonably possible.

The Claim Form is available online at [\[insert link to DND website\]](#), or by calling [\[insert phone number\]](#).

If you need help filling out your Claim Form, you should contact the Administrator.

12. How will payments be calculated?

The Administrator will review your Claim Form and determine if you qualify for a payment. If you do, the Administrator will determine the amount of your payment based on the criteria described in the Settlement Agreement.

13. What if I disagree with the decision?

If you wish to dispute the decision, you may request that the decision be reconsidered.

14. What if my claim is denied?

If your claim is denied, you will receive a notice of the decision. You may request that the denial decision be reconsidered.

THE LAWYERS REPRESENTING YOU

15. Who is Class Counsel?

The lawyers representing the Representative Plaintiff and Class Members are Koskie Minsky LLP. If you wish to be represented by or receive advice from another lawyer, you may hire a lawyer at your own expense.

16. How will Class Counsel be paid?

Class Counsel will be paid fees and disbursements in the amount of **[insert amount]**, together with applicable taxes. This amount will be paid directly by Canada and separately from the compensation paid to Class Members.

You will not need to pay any legal fees out of your own pocket. If you retain another lawyer or representative then you must pay the fees, disbursements and taxes for their services.

A. CLAIM

1. The Plaintiff Douglas Jost claims on his own behalf and on behalf of class members (as defined below):

- (a) an order certifying this action as a class proceeding and appointing Douglas Jost as representative plaintiff under the *Federal Courts Rules*, SOR/98-106;
- (b) a declaration that the Defendant, Her Majesty the Queen as represented by the Attorney General of Canada, breached its contractual obligations, its duty of care, and its fiduciary duty to the Plaintiff and the class members;
- (c) general pecuniary and non-pecuniary damages for the Defendant's breaches of its contractual obligations, its duty of care, and its fiduciary duty to the class members in the amount of \$100 million or such other sum as this Honourable Court may find appropriate;
- (d) pre-judgment and post-judgment interest pursuant to the *Federal Courts Act*, R.S.C., 1985, c. F-7;
- (e) the costs of notice and of administering the plan of distribution of the recovery in this action, plus applicable taxes, pursuant to Rule 334.38 of the *Federal Courts Rules*, SOR/98-106; and
- (f) such further and other Relief as to this Honourable Court may deem just.

B. OVERVIEW

2. Members of the Canadian Armed Forces ("CAF") earn pensions in return for their service in the CAF. The CAF maintains a pension plan for the Reserve Force and a pension plan for the Regular Force. When CAF members return to civilian life and are discharged from the CAF they take their pension entitlement with them. In some instances, the pension entitlement is payable immediately to the CAF member upon their discharge by way of an Immediate Annuity, Transfer Value, Annual

2

Allowance or Bridge Benefit (the "Immediate Pension Entitlements"). An Immediate Annuity may be payable in circumstances wherein the member is disabled.

3. Members rely on the timely payment of their Immediate Pension Entitlements to secure the basic daily necessities of life, including housing, medication, food and other necessities.

4. The members rely on Canada to calculate and pay the Immediate Pension Entitlements in a timely manner and in a manner which does not erode or jeopardize the pension value. The Immediate Pension Entitlements are essential for the transition from CAF service to civilian life and to maintain the basic livelihood veterans served their country to secure.

5. Since at least March 1, 2007, Canada has engaged in chronic, excessive and unreasonable delay in the payment of Immediate Pension Entitlements to discharged members of the CAF. Through mismanagement, Canada has forced discharged members of the CAF to wait weeks, months and in some instances years, before receiving their Immediate Pension Entitlements.

6. Canada's unreasonable delay has resulted in significant hardship to discharged members. Canada has not properly compensated discharged members for the unreasonable delay in processing, calculating and ultimately paying Immediate Pension Entitlements. As a result of Canada's delay, discharged members of the CAF have lost value in their Immediate Pension Entitlements, gone without medication,

lost shelter, were deprived of the basic necessities of life and endured pain and suffering.

7. In short, Canada's delay in paying Immediate Pension Entitlements has driven discharged members of the CAF to personal and financial crisis. Discharged members are humiliated and are not permitted to make the transition to civilian life in dignity.

8. Canada's unreasonable delay constitutes a breach of Canada's contractual obligations, duty of care and fiduciary duties owed to members of the Reserve Force and Regular Force pension plans. Canada has known about the problem of mismanagement and delay of the Reserve Force and Regular Force pension plans for years. Canada has not taken appropriate steps to rectify its conduct and ignored explicit recommendations aimed at rectifying the problem of delays.

C. THE CLASS

9. The Plaintiff wishes to institute a class action, on his own behalf and on behalf of the members forming part of the following class:

All members of the Canadian Forces - Reserve Force Pension Plan and the Canadian Forces - Regular Force Pension Plan who were entitled upon release to an Immediate Annuity, Transfer Value, Annual Allowance or Bridge Benefit, between March 1, 2007 and the present. ("Class Members" or the "Class")

D. THE PLAINTIFF

10. Douglas Jost was discharged from the CAF on June 30, 2015, with his release effective July 1, 2015. Mr. Jost, like all members of the CAF, was required to give 3

months notice of his impending discharge. Mr. Jost last served as a full-time Naval Reservist at the rank of Lieutenant. Mr. Jost was 48 at the time of his discharge with two or more years of pensionable service and a purported total of 8,969 days of qualifying service. On April 9, 2015, approximately two months prior to his release, Mr. Jost was offered an option of selecting either:

- (a) an Annual Allowance – payable at age 50, of \$2,760 per month; or
- (b) a Deferred Annuity – payable at age 60, of \$3,680 per month; or
- (c) a Transfer Value – with a total value of approximately \$859,980.

11. Mr. Jost opted for the Transfer Value option and was advised he would receive payment in 8-12 weeks.

12. Mr. Jost was then advised on August 1, 2015, approximately 1 month after his release, that his Transfer Value was in fact \$726,904.

13. Mr. Jost did not receive his Transfer Value payment within 8-12 weeks. Mr. Jost made his decision to be released and elected a Transfer Value on the understanding and representation he would receive his Transfer Value payment within 8-12 weeks, at the amount represented to him. Mr. Jost made financial plans on this representation and promise.

14. By October 16, 2015, 6.5 months from the notification of his intended discharge, or 3.5 months from his formal discharge, the internal "audited release message" was first completed by Canada. The audited release message was only the

5

first step to permitting the Reserve Forces Benefit Section to process Mr. Jost's entitlement. Such requirements are unilaterally imposed and controlled by Canada.

15. On October 20, 2015, Mr. Jost was advised that his Transfer Value had again decreased from \$726,904 to \$703,180. Mr. Jost was not advised why the value decreased. Similarly, on October 20, 2015, the defendant for the first time provided Mr. Jost with an "option form" to select what form of pension entitlement he wished to select. Prior to October 20, 2015 Mr. Jost had already received two pension estimates from Canada and advised of his election to receive the Transfer Value.

16. The Transfer Value payment to Mr. Jost was not made until January 20, 2016, approximately 9.5 months from the date of his notice of discharge or 6.5 months from his discharge. The payment to Mr. Jost was made 29 weeks after his discharge and not within the 8-12 weeks promised earlier. Mr. Jost was never compensated for the late payment or the reduction in the value of his Transfer Value over the course of the unreasonable delay. Mr. Jost incurred debts, late payment penalties and suffered a marked loss in the daily enjoyment of his life as a result of the financial ruin Canada's delay directly caused.

E. THE PENSION PLANS

17. The CAF have two pension plans: the Regular Force Pension Plan ("**Regular Plan**") and the Reserve Force Pension Plan ("**Reserve Plan**"), both of which are defined benefit plans (Collectively, the "**Plans**"). According to 2014 data, the

6

Regular Plan has 71,599 active contributors and 86,007 retired members. The Reserve Plan has 19,855 active contributors and 596 retired members.

18. The Reserve Plan was first introduced in 2007. The Regular Plan predates 2007. Both Plans are presently governed by the *Canadian Forces Superannuation Act*, *Canadian Forces Superannuation Regulations* and the *Reserve Force Pension Plan Regulations*. The Plans are funded from employee and employer contributions. The Defendant is responsible for providing program management and day-to-day administration of the Plans.

19. Class Members are provided common information regarding their pension entitlements. The pension promise made to Class Members is part of their terms of service. The Orientation Information Kit, which is published and provided to the Class Members states that "...the plan is designed to provide qualified members with a retirement income payable upon release from the CAF."

Immediate Pension Entitlements

20. The Plans provide for 4 general types of pension entitlements upon release:

(a) **Immediate Annuity**

A member is entitled to an Immediate Annuity pursuant to the following conditions:

(a) they have completed not less than 9,131 days of Canadian Forces service;

(b) they have reached 60 years of age;

7

(e) they have reached 55 years of age and have to their credit not less than 30 years of pensionable service;

(d) they are disabled by reason of suffering from a physical or mental impairment that

(i) prevents the member from engaging in any employment for which the member is reasonably suited by virtue of education, training or experience, and

(ii) can reasonably be expected to last for the remainder of the member's lifetime; or

(e) they cease, otherwise than voluntarily, to be a member because of a reduction in the maximum number of officers or non-commissioned members authorized by the Governor in Council under subsection 15(4) of the National Defence Act, and

(i) they have reached 55 years of age and have to their credit not less than 10 years of pensionable service, or

(ii) they have to their credit not less than 20 years of pensionable service.

(b) Deferred Annuity

A member who has 2 years of pensionable service, but is not yet entitled to an Immediate Annuity, may elect to receive a Deferred Annuity upon their discharge, which commences generally once the conditions for an Immediate Annuity are met.

(c) Transfer Value

If a member is entitled to select a Deferred Annuity, they may elect instead to take a lump sum commuted value payment at the time of discharge in lieu of the future annuity entitlement.

(d) Annual Allowance

If a member is entitled to select a Deferred Annuity, but is under 60, they may elect instead to take an annual allowance which becomes payable when they reach the age of 50 at an amount that is less than the Deferred Annuity.

21. In all circumstances, by virtue of the duty of care, fiduciary duties or contractual obligations owed to the Class Members, the Immediate Pension

Entitlements are payable to the Class Members immediately following their release from the CAF.

22. An Immediate Annuity is defined by the *Canadian Forces Superannuation Act* as "an annuity that becomes payable to the contributor immediately on his becoming entitled thereto"

23. The commencement date of an Immediate Annuity according to the *Reserve Force Pension Plan Regulations* "is the day following the last day on which the member is a participant". A member ceases to be a participant once they are released from the Reserve Force. The commencement date for an Immediate Annuity is the date a Class Member is released from the CAF. Similarly, the commencement date for an Annual Allowance is the date on which the pensioner turns 50, or immediately if the pensioner is 50 years of age or older at the time of discharge.

Systemic Delays

24. Since the introduction of the Reserve Plan, effective March 1, 2007, the Plans have faced unreasonable and excessive delays in processing Immediate Pension Entitlements.

25. In 2011, the Auditor General released its report on the findings from its audit on the Reserve Plan, encompassing a review of financial statements from 2007 to 2010. The Auditor General concluded that the Reserve Plan was introduced without adequate planning and that the system faced significant backlogs, specifically:

- (a) the Reserve Plan was introduced without adequate planning;
- (b) no senior official was made responsible for the introduction of the Reserve Plan;
- (c) senior management did not develop or use a master implementation plan;
- (d) lack of an overall plan to coordinate the development of policy and regulations with the start of the delivery of the Reserve Plan contributed to the subsequent weaknesses in its implementation;
- (e) management identified significant risks that were not dealt with appropriately, including:
 - (i) reservists not receiving useful information about the pension plan provisions and, as a result, not choosing the financial option best suited to their circumstances;
 - (ii) workloads increasing substantially, particularly to process pension buyback requests, when staff were still learning new business rules and system tools;
 - (iii) a lack of adequate pay and service records for reservists prior to 1999; and
 - (iv) complex regulations and business rules, making the pension plan difficult to manage and communicate to reservists.
- (f) the Department did not take measures to sufficiently mitigate these risks until after the plan came into force in March 2007, which adversely affected the delivery of pension services to reservists;
- (g) Under the legislation and regulations, National Defence was required to put in place the means necessary to operate the Reserve Plan, including resources and information systems and control procedures. These procedures needed to be in place at the time the plan came into effect, to determine member obligations and entitlements according to the authorities;
- (h) the Department did not provide sufficient lead time before the Reserve Plan came into force for hiring and training staff or for testing service delivery readiness for different scenarios that could be expected; and
- (i) management underestimated service demands and administrative costs.

26. The Department of National Defence acknowledged the Auditor General's findings and agreed with the audit recommendations.

27. At the end of fiscal year 2010-2011, only 757 of 11,090 Reserve Force service elections had been processed and it was estimated that the backlog would be fully addressed in fiscal year 2013-2014. By February 2012, only 1,321 of 12,201 Reserve Force service elections had been processed and the estimated completion date was December 2017.

28. The Veterans Ombudsman's Office and the National Defence and Canadian Forces Ombudsman have provided critical commentary in their annual reports. On April 1, 2016, the National Defence and Canadian Forces Ombudsman released a statement commenting on the pension delays. He noted his office had received 1,300 complaints since 2007. He commented that the average payment timeline for a retiring reserve force member was between 4 to 36 weeks, and 3 to 14 for regular force members. The Defence Minister Harjit Sajjan responded by calling the backlog "absolutely unacceptable".

29. On July 4, 2016, Public Services and Procurement Canada took over responsibility for processing military pensions. In February 2017, it was reported that the backlog of military pension payment files would not be addressed until the end of 2017. The backlog was estimated to be 5,264.

30. The Department of National Defence and Canadian Forces Ombudsman made recommendations that no member of the CAF be released until all of their benefits are arranged. This recommendation was ignored.

F. CAUSES OF ACTION

i. Breach of Fiduciary Duty

31. At all material times Canada, formerly through the Department of National Defence and now Public Services and Procurement Canada, acted as the administrator of the Plans. The timely and correct processing, calculation and payment of Immediate Pension Entitlements is crucial to the pecuniary and non-pecuniary well-being of Class Members.

32. Canada has discretion and power over the Class Members' financial and practical interests in administering and paying Immediate Pension Entitlements under the Plans. Canada can unilaterally exercise such discretion over the interests of the Class Members by virtue of their position as administrator of the Plans.

33. Canada simultaneously has discretion and power over the Class Members' terms of service and terms of discharge and release from the CAF.

34. The Class Members were entirely reliant on the skill and expertise of Canada in the implementation of the Plans and payment of Immediate Pension Entitlements. The Class Members were in a vulnerable position relative to Canada by virtue of the complete control held by Canada in the administration of the Plans. The vulnerability

of the Class Members was amplified as a result of their position as released veterans who may be suffering from long term disabilities.

35. The Plans are solely for the benefit of the Class Members and Class Members are entitled to be paid their Immediate Pension Entitlements at the time of discharge.

36. Canada breached its fiduciary duties to the Plaintiff and the Class in the administration of the Plans. The particulars of the breach include:

- (a) failing to pay Class Members their Immediate Pension Entitlements at the time the Class Members were entitled to receive such payments;
- (b) failing to appropriately calculate Immediate Pension Entitlement payments to compensate for delays in payment;
- (c) failing to provide Class Members accurate and timely financial and administrative information regarding their quantum of entitlement, options and timing of payment for the Immediate Pension Entitlements;
- (d) failing to take appropriate steps for the prevention of delays in processing and paying of Immediate Pension Entitlements which the Class Members were entitled to upon release from the CAF;
- (e) failing to take a proper and good faith interest in the administration of the Plans;
- (f) discharging members from the CAF with the knowledge that as a result of delays known to Canada the discharged member would have no pension income and no way to support their daily living needs after discharge;
- (g) discharging members from CAF whom were known to be suffering from a disability and for whom the only source of income would be the Immediate Pension Entitlements; and
- (h) failing to safeguard the physical and psychological needs of members whom were known to be medically unable to work.

37. Canada failed to ensure the best interests of the Class Members were being protected. In failing to rectify known delays and calculating deficient amounts owed to Class Members, Canada sought to maximize its own interests at the expense of the Class.

38. Canada has an ongoing financial obligation to fund and administer the Plans. Canada favoured its interests over the interests of the Class Members by paying the Class Members late and less than the Class Members were entitled to. Canada favoured its interests over the interests of the Class Members by under-resourcing the administration of the Plans.

ii. Negligence

39. At all material times Canada, formerly through the Department of National Defence and now Public Services and Procurement Canada, acted as the administrator of Plans. At all material times, Canada owed duties to the Plaintiff and to the Class Members which include, but are not limited to, a duty to give proper consideration to, and to take reasonable care of, the Class members' financial, physical and mental well-being.

40. At all material times, the actions of Canada as the administrator of the Plans had a direct impact on the Class members. The legislation governing the Plans grounds the duty of care owed by Canada to the Class. The harm suffered by the Class was a reasonably foreseeable consequence of Canada's acts and omissions.

14

41. The Defendant is responsible for the proper administrations of the Plans and ensuring the timely and accurate payment of Immediate Pension Entitlements to the Class Members. The Class Members are entirely dependent on Canada. In such circumstances, the risk of harm of the nature contemplated in this action is reasonably foreseeable.

42. There was a direct and proximate relationship and specific interaction between the Class members and Canada, including but not limited to:

- (a) the Class Members providing services to Canada in exchange for earning pension entitlements;
- (b) communications between Canada and the Class Members regarding pension obligations and entitlements;
- (c) Canada holding and investing pension funds on behalf of the Class; and
- (d) the payment of pensions from Canada to the Class Members.

43. Canada must have in place systems and procedures to determine Class Member obligations, entitlements and to ensure timely, complete and accurate pension and benefit payments.

44. The systems Canada put in place to administer the Plans were below the standard that would reasonably be required of a pension administrator, specifically:

- (a) members were not advised in a timely manner of how or when they could make an election as to the form of Immediate Pension Entitlement and the defendant did not provide members with the option to make an election in a timely manner;

15

- (b) Canada did not advise members that their elections would not be treated as final;
 - (c) the pension processing system does not incorporate new technology applications, such as web-enabling for self-service;
 - (d) the system is an old legacy pay system that does not allow customization or quick changes;
 - (e) Class Member files were located in a variety of locations, often only in paper format requiring extensive manual processing of Immediate Pension Entitlements;
 - (f) the processing of pensions and review of requests and files was chronically understaffed;
 - (g) those responsible for delivering pension services do not have access to timely pay and pension management reports because of the limitations of the legacy system technology; and
 - (h) pension processing suffered from an enormous amount of transaction errors, including data entry errors.
45. Canada negligently administered the pension plans by:
- (a) failing to pay Class Members their Immediate Pension Entitlements at the time the Class Members were entitled to receive such payments;
 - (b) failing to appropriately calculate Immediate Pension Entitlement payments to compensate for delays in payment;
 - (c) failing to provide Class Members accurate and timely financial and administrative information regarding their quantum of entitlement, options and timing of payment for the Immediate Pension Entitlements;
 - (d) failing to take appropriate steps for the prevention of delays in processing and paying of Immediate Pension Entitlements which the Class Members were entitled to upon release from the CAF;
 - (e) failing to hire staff with sufficient training and in sufficient numbers to process payments in a timely manner;
 - (f) failing to keep employment records in an organized and accessible manner to permit timely processing of pensions;

16

- (g) failing to take a proper and good faith interest in the administration of the Plans;
- (h) discharging members from the CAF with the knowledge that as a result of delays known to Canada the discharged member would have no pension income and no way to support their daily living needs after discharge;
- (i) discharging members from CAF whom were known to be suffering from a disability and for whom the only source of income would be the Immediate Pension Entitlements; and
- (j) failing to safeguard the physical and psychological needs of members whom were known to be medically unable to work.

iii. Breach of Contract

46. The Class Members served the CAF for years. The Class Members served under the mutual understanding with Canada that they were earning a pension which would be payable upon their discharge. Through service in the CAF, the Class Members earned pension entitlements which crystalized upon their discharge to civilian life. Canada made common representations to the Class by way of paper brochures, orientation kits and web postings that the Immediate Pension Entitlements were payable upon discharge. Class Members continued to serve the CAF under terms of service because of the pension promise made to them by Canada. Canada continued to enjoy and use the services rendered by the Class Members.

47. By unreasonably delaying the payment of Immediate Pension Entitlements, Canada has not honoured its obligations to Class Members which were created through the years of service given by the Class to Canada.

48. Canada breached its contractual duties to the plaintiff and the Class. The particulars of the breach include:

- (a) failing to pay Class Members their Immediate Pension Entitlements at the time those entitlement were payable;
- (b) failing to appropriately calculate Immediate Pension Entitlement payments to correctly compensate for delays in payment;
- (c) failing to provide Class Members accurate and timely financial and administrative information regarding their quantum of entitlement, options and timing of payment for the Immediate Pension Entitlements;
- (d) discharging members from the CAF with the knowledge that as a result of delays known to Canada the discharged member would not have access to their earned pension income; and
- (e) discharging members from CAF whom were known to be suffering from a disability and for whom the only source of income would be the Immediate Pension Entitlements.

G. DAMAGES

49. The Class Members have suffered the following damages:

- (a) the payments of the Immediate Pension Entitlements do not properly or adequately compensate for the value of the unreasonable delay in payment, including but not limited to:
 - (i) interest from the date of electing an option to the date of payment of the Immediate Pension Entitlement;
- (b) the value of the Immediate Pension Entitlements has decreased over the period of delay from the date of entitlement to the date of payment, including but not limited to:
 - (i) a decrease in the commuted value of Transfer Values between the date of discharge to the date of payment; and

18

- (ii) a decrease in the value of Immediate Annuities, Deferred Annuities and Annual Allowances between the date of discharge to the date of payment.
- (c) the Class Members were discharged prematurely and gave up active employment income on the representations made by Canada that Immediate Pension Entitlements would be paid in a prompt and timely manner after discharge;
- (d) the Class Members were required to take on unnecessary debts, loans, late payment penalties and interest payments; and
- (e) pain, suffering and the loss of enjoyment of life, including but not limited to, the inability to secure the necessities of life such as shelter, food and medication which the pension income was intended to secure.

H. STATUTES

50. The Plaintiffs plead and rely upon the following statutes and regulations:

- (a) *Crown Liability and Proceedings Act*, RSC 1985, c. C-50;

A. CLAIM

1. The Plaintiff Douglas Jost claims on his own behalf and on behalf of class members (as defined below):

- (a) an order certifying this action as a class proceeding and appointing Douglas Jost as representative plaintiff under the *Federal Courts Rules*, SOR/98-106;
- (b) a declaration that the Defendant, Her Majesty the Queen as represented by the Attorney General of Canada, breached its contractual obligations and its duty of care to the Plaintiff and the class members;
- (c) general pecuniary and non-pecuniary damages for the Defendant's breaches of its contractual obligations and its duty of care to the class members in the amount of \$100 million or such other sum as this Honourable Court may find appropriate;
- (d) pre-judgment and post-judgment interest pursuant to the *Federal Courts Act*, R.S.C., 1985, c. F-7;
- (e) the costs of notice and of administering the plan of distribution of the recovery in this action, plus applicable taxes, pursuant to Rule 334.38 of the *Federal Courts Rules*, SOR/98-106; and
- (f) such further and other Relief as to this Honourable Court may deem just.

B. OVERVIEW

2. Members of the Canadian Armed Forces ("CAF") earn pensions in return for their service in the CAF. The CAF maintains a pension plan for the Reserve Force and a pension plan for the Regular Force. When CAF members return to civilian life and are discharged from the CAF they take their pension entitlement with them. In some instances, the pension entitlement is payable immediately to the CAF member upon their discharge by way of an Immediate Annuity, Transfer Value, Annual Allowance

2

or Bridge Benefit (the "**Immediate Pension Entitlements**"). An Immediate Annuity may be payable in circumstances wherein the member is disabled.

3. Members rely on the timely payment of their Immediate Pension Entitlements to secure the basic daily necessities of life, including housing, medication, food and other necessities.

4. The members rely on Canada to calculate and pay the Immediate Pension Entitlements in a timely manner and in a manner which does not erode or jeopardize the pension value. The Immediate Pension Entitlements are essential for the transition from CAF service to civilian life and to maintain the basic livelihood veterans served their country to secure.

5. Since at least March 1, 2007, Canada has engaged in chronic, excessive and unreasonable delay in the payment of Immediate Pension Entitlements to discharged members of the CAF. Through mismanagement, Canada has forced discharged members of the CAF to wait weeks, months and in some instances years, before receiving their Immediate Pension Entitlements.

6. Canada's unreasonable delay has resulted in significant hardship to discharged members. Canada has not properly compensated discharged members for the unreasonable delay in processing, calculating and ultimately paying Immediate Pension Entitlements. As a result of Canada's delay, discharged members of the CAF

3

have lost value in their Immediate Pension Entitlements, gone without medication, lost shelter, were deprived of the basic necessities of life and endured pain and suffering.

7. In short, Canada's delay in paying Immediate Pension Entitlements has driven discharged members of the CAF to personal and financial crisis. Discharged members are humiliated and are not permitted to make the transition to civilian life in dignity.

8. Canada's unreasonable delay constitutes a breach of Canada's contractual obligations and duty of care owed to members of the Reserve Force and Regular Force pension plans. Canada has known about the problem of mismanagement and delay of the Reserve Force and Regular Force pension plans for years. Canada has not taken appropriate steps to rectify its conduct and ignored explicit recommendations aimed at rectifying the problem of delays.

C. THE CLASS

9. The Plaintiff wishes to institute a class action, on his own behalf and on behalf of the members forming part of the following class:

All individuals who:

- (a) served in the Canadian Armed Forces – Reserve Force;
- (b) released from the Canadian Armed Forces between March 1, 2007 and October 31, 2017;
- (c) were entitled to receive an Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit under the Regular Force Pension Plan or the Reserve Force Pension Plan; and

4

- (d) did not receive payment of the Immediate Annuity, Transfer Value, Annual Allowance and/or Bridge Benefit for more than 60 days from the date of release.

("Class Members" or the "Class")

D. THE PLAINTIFF

10. Douglas Jost was discharged from the CAF on June 30, 2015, with his release effective July 1, 2015. Mr. Jost, like all members of the CAF, was required to give 3 months notice of his impending discharge. Mr. Jost last served as a full-time Naval Reservist at the rank of Lieutenant. Mr. Jost was 48 at the time of his discharge with two or more years of pensionable service and a purported total of 8,969 days of qualifying service. On April 9, 2015, approximately two months prior to his release, Mr. Jost was offered an option of selecting either:

- (a) an Annual Allowance – payable at age 50, of \$2,760 per month; or
- (b) a Deferred Annuity – payable at age 60, of \$3,680 per month; or
- (c) a Transfer Value – with a total value of approximately \$859,980.

11. Mr. Jost opted for the Transfer Value option and was advised he would receive payment in 8-12 weeks.

12. Mr. Jost was then advised on August 1, 2015, approximately 1 month after his release, that his Transfer Value was in fact \$726,904.

13. Mr. Jost did not receive his Transfer Value payment within 8-12 weeks. Mr. Jost made his decision to be released and elected a Transfer Value on the understanding

and representation he would receive his Transfer Value payment within 8-12 weeks, at the amount represented to him. Mr. Jost made financial plans on this representation and promise.

14. By October 16, 2015, 6.5 months from the notification of his intended discharge, or 3.5 months from his formal discharge, the internal "audited release message" was first completed by Canada. The audited release message was only the first step to permitting the Reserve Forces Benefit Section to process Mr. Jost's entitlement. Such requirements are unilaterally imposed and controlled by Canada.

15. On October 20, 2015, Mr. Jost was advised that his Transfer Value had again decreased from \$726,904 to \$703,180. Mr. Jost was not advised why the value decreased. Similarly, on October 20, 2015, the defendant for the first time provided Mr. Jost with an "option form" to select what form of pension entitlement he wished to select. Prior to October 20, 2015 Mr. Jost had already received two pension estimates from Canada and advised of his election to receive the Transfer Value.

16. The Transfer Value payment to Mr. Jost was not made until January 20, 2016, approximately 9.5 months from the date of his notice of discharge or 6.5 months from his discharge. The payment to Mr. Jost was made 29 weeks after his discharge and not within the 8-12 weeks promised earlier. Mr. Jost was never compensated for the late payment or the reduction in the value of his Transfer Value over the course of the unreasonable delay. Mr. Jost incurred debts, late payment penalties and suffered a

marked loss in the daily enjoyment of his life as a result of the financial ruin Canada's delay directly caused.

E. THE PENSION PLANS

17. The CAF have two pension plans: the Regular Force Pension Plan ("**Regular Plan**") and the Reserve Force Pension Plan ("**Reserve Plan**"), both of which are defined benefit plans (Collectively, the "**Plans**"). According to 2014 data, the Regular Plan has 71,599 active contributors and 86,007 retired members. The Reserve Plan has 19,855 active contributors and 596 retired members.

18. The Reserve Plan was first introduced in 2007. The Regular Plan predates 2007. Both Plans are presently governed by the *Canadian Forces Superannuation Act*, *Canadian Forces Superannuation Regulations* and the *Reserve Force Pension Plan Regulations*. The Plans are funded from employee and employer contributions. The Defendant is responsible for providing program management and day-to-day administration of the Plans.

19. Class Members are provided common information regarding their pension entitlements. The pension promise made to Class Members is part of their terms of service. The Orientation Information Kit, which is published and provided to the Class Members states that "...the plan is designed to provide qualified members with a retirement income payable upon release from the CAF."

Immediate Pension Entitlements

20. The Plans provide for 4 general types of pension entitlements upon release:

(a) **Immediate Annuity**

A member is entitled to an Immediate Annuity pursuant to the following conditions:

(a) they have completed not less than 9,131 days of Canadian Forces service;

(b) they have reached 60 years of age;

(c) they have reached 55 years of age and have to their credit not less than 30 years of pensionable service;

(d) they are disabled by reason of suffering from a physical or mental impairment that

(i) prevents the member from engaging in any employment for which the member is reasonably suited by virtue of education, training or experience, and

(ii) can reasonably be expected to last for the remainder of the member's lifetime; or

(e) they cease, otherwise than voluntarily, to be a member because of a reduction in the maximum number of officers or non-commissioned members authorized by the Governor in Council under subsection 15(4) of the National Defence Act, and

(f) they have reached 55 years of age and have to their credit not less than 10 years of pensionable service, or

(g) they have to their credit not less than 20 years of pensionable service.

(b) **Deferred Annuity**

A member who has 2 years of pensionable service, but is not yet entitled to an Immediate Annuity, may elect to receive a Deferred Annuity upon their discharge, which commences generally once the conditions for an Immediate Annuity are met.

(c) **Transfer Value**

8

If a member is entitled to select a Deferred Annuity, they may elect instead to take a lump sum commuted value payment at the time of discharge in lieu of the future annuity entitlement.

(d) **Annual Allowance**

If a member is entitled to select a Deferred Annuity, but is under 60, they may elect instead to take an annual allowance which becomes payable when they reach the age of 50 at an amount that is less than the Deferred Annuity.

21. In all circumstances, by virtue of the duty of care or contractual obligations owed to the Class Members, the Immediate Pension Entitlements are payable to the Class Members immediately following their release from the CAF.

22. An Immediate Annuity is defined by the *Canadian Forces Superannuation Act* as "an annuity that becomes payable to the contributor immediately on his becoming entitled thereto"

23. The commencement date of an Immediate Annuity according to the *Reserve Force Pension Plan Regulations* "is the day following the last day on which the member is a participant". A member ceases to be a participant once they are released from the Reserve Force. The commencement date for an Immediate Annuity is the date a Class Member is released from the CAF. Similarly, the commencement date for an Annual Allowance is the date on which the pensioner turns 50, or immediately if the pensioner is 50 years of age or older at the time of discharge.

Systemic Delays

24. Since the introduction of the Reserve Plan, effective March 1, 2007, the Plans have faced unreasonable and excessive delays in processing Immediate Pension Entitlements.

25. In 2011, the Auditor General released its report on the findings from its audit on the Reserve Plan, encompassing a review of financial statements from 2007 to 2010. The Auditor General concluded that the Reserve Plan was introduced without adequate planning and that the system faced significant backlogs, specifically:

- (a) the Reserve Plan was introduced without adequate planning;
- (b) no senior official was made responsible for the introduction of the Reserve Plan;
- (c) senior management did not develop or use a master implementation plan;
- (d) lack of an overall plan to coordinate the development of policy and regulations with the start of the delivery of the Reserve Plan contributed to the subsequent weaknesses in its implementation;
- (e) management identified significant risks that were not dealt with appropriately, including:
 - (i) reservists not receiving useful information about the pension plan provisions and, as a result, not choosing the financial option best suited to their circumstances;
 - (ii) workloads increasing substantially, particularly to process pension buyback requests, when staff were still learning new business rules and system tools;
 - (iii) a lack of adequate pay and service records for reservists prior to 1999; and
 - (iv) complex regulations and business rules, making the pension plan difficult to manage and communicate to reservists.

10

- (f) the Department did not take measures to sufficiently mitigate these risks until after the plan came into force in March 2007, which adversely affected the delivery of pension services to reservists;
- (g) Under the legislation and regulations, National Defence was required to put in place the means necessary to operate the Reserve Plan, including resources and information systems and control procedures. These procedures needed to be in place at the time the plan came into effect, to determine member obligations and entitlements according to the authorities;
- (h) the Department did not provide sufficient lead time before the Reserve Plan came into force for hiring and training staff or for testing service delivery readiness for different scenarios that could be expected; and
- (i) management underestimated service demands and administrative costs.

26. The Department of National Defence acknowledged the Auditor General's findings and agreed with the audit recommendations.

27. At the end of fiscal year 2010-2011, only 757 of 11,090 Reserve Force service elections had been processed and it was estimated that the backlog would be fully addressed in fiscal year 2013-2014. By February 2012, only 1,321 of 12,201 Reserve Force service elections had been processed and the estimated completion date was December 2017.

28. The Veterans Ombudsman's Office and the National Defence and Canadian Forces Ombudsman have provided critical commentary in their annual reports. On April 1, 2016, the National Defence and Canadian Forces Ombudsman released a statement commenting on the pension delays. He noted his office had received 1,300 complaints since 2007. He commented that the average payment timeline for a retiring

reserve force member was between 4 to 36 weeks, and 3 to 14 for regular force members. The Defence Minister Harjit Sajjan responded by calling the backlog "absolutely unacceptable".

29. On July 4, 2016, Public Services and Procurement Canada took over responsibility for processing military pensions. In February 2017, it was reported that the backlog of military pension payment files would not be addressed until the end of 2017. The backlog was estimated to be 5,264.

30. The Department of National Defence and Canadian Forces Ombudsman made recommendations that no member of the CAF be released until all of their benefits are arranged. This recommendation was ignored.

F. CAUSES OF ACTION

i. Negligence

31. At all material times Canada, formerly through the Department of National Defence and now Public Services and Procurement Canada, acted as the administrator of Plans. At all material times, Canada owed duties to the Plaintiff and to the Class Members which include, but are not limited to, a duty to give proper consideration to, and to take reasonable care of, the Class members' financial, physical and mental well-being.

32. At all material times, the actions of Canada as the administrator of the Plans had a direct impact on the Class members. The legislation governing the Plans grounds the duty of care owed by Canada to the Class. The harm suffered by the Class was a reasonably foreseeable consequence of Canada's acts and omissions.

33. The Defendant is responsible for the proper administrations of the Plans and ensuring the timely and accurate payment of Immediate Pension Entitlements to the Class Members. The Class Members are entirely dependent on Canada. In such circumstances, the risk of harm of the nature contemplated in this action is reasonably foreseeable.

34. There was a direct and proximate relationship and specific interaction between the Class members and Canada, including but not limited to:

- (a) the Class Members providing services to Canada in exchange for earning pension entitlements;
- (b) communications between Canada and the Class Members regarding pension obligations and entitlements;
- (c) Canada holding and investing pension funds on behalf of the Class; and
- (d) the payment of pensions from Canada to the Class Members.

35. Canada must have in place systems and procedures to determine Class Member obligations, entitlements and to ensure timely, complete and accurate pension and benefit payments.

36. The systems Canada put in place to administer the Plans were below the standard that would reasonably be required of a pension administrator, specifically:

- (a) members were not advised in a timely manner of how or when they could make an election as to the form of Immediate Pension Entitlement and the defendant did not provide members with the option to make an election in a timely manner;
- (b) Canada did not advise members that their elections would not be treated as final;
- (c) the pension processing system does not incorporate new technology applications, such as web-enabling for self-service;
- (d) the system is an old legacy pay system that does not allow customization or quick changes;
- (e) Class Member files were located in a variety of locations, often only in paper format requiring extensive manual processing of Immediate Pension Entitlements;
- (f) the processing of pensions and review of requests and files was chronically understaffed;
- (g) those responsible for delivering pension services do not have access to timely pay and pension management reports because of the limitations of the legacy system technology; and
- (h) pension processing suffered from an enormous amount of transaction errors, including data entry errors.

37. Canada negligently administered the pension plans by:

- (a) failing to pay Class Members their Immediate Pension Entitlements at the time the Class Members were entitled to receive such payments;
- (b) failing to appropriately calculate Immediate Pension Entitlement payments to compensate for delays in payment;
- (c) failing to provide Class Members accurate and timely financial and administrative information regarding their quantum of entitlement, options and timing of payment for the Immediate Pension Entitlements;

14

- (d) failing to take appropriate steps for the prevention of delays in processing and paying of Immediate Pension Entitlements which the Class Members were entitled to upon release from the CAF;
- (e) failing to hire staff with sufficient training and in sufficient numbers to process payments in a timely manner;
- (f) failing to keep employment records in an organized and accessible manner to permit timely processing of pensions;
- (g) failing to take a proper and good faith interest in the administration of the Plans;
- (h) discharging members from the CAF with the knowledge that as a result of delays known to Canada the discharged member would have no pension income and no way to support their daily living needs after discharge;
- (i) discharging members from CAF whom were known to be suffering from a disability and for whom the only source of income would be the Immediate Pension Entitlements; and
- (j) failing to safeguard the physical and psychological needs of members whom were known to be medically unable to work.

ii. Breach of Contract

38. The Class Members served the CAF for years. The Class Members served under the mutual understanding with Canada that they were earning a pension which would be payable upon their discharge. Through service in the CAF, the Class Members earned pension entitlements which crystallized upon their discharge to civilian life. Canada made common representations to the Class by way of paper brochures, orientation kits and web postings that the Immediate Pension Entitlements were payable upon discharge. Class Members continued to serve the CAF under terms of service because of the pension promise made to them by Canada. Canada continued to enjoy and use the services rendered by the Class Members.

39. By unreasonably delaying the payment of Immediate Pension Entitlements, Canada has not honoured its obligations to Class Members which were created through the years of service given by the Class to Canada.

40. Canada breached its contractual duties to the plaintiff and the Class. The particulars of the breach include:

- (a) failing to pay Class Members their Immediate Pension Entitlements at the time those entitlement were payable;
- (b) failing to appropriately calculate Immediate Pension Entitlement payments to correctly compensate for delays in payment;
- (c) failing to provide Class Members accurate and timely financial and administrative information regarding their quantum of entitlement, options and timing of payment for the Immediate Pension Entitlements;
- (d) discharging members from the CAF with the knowledge that as a result of delays known to Canada the discharged member would not have access to their earned pension income; and
- (e) discharging members from CAF whom were known to be suffering from a disability and for whom the only source of income would be the Immediate Pension Entitlements.

G. DAMAGES

41. The Class Members have suffered the following damages:

- (a) the payments of the Immediate Pension Entitlements do not properly or adequately compensate for the value of the unreasonable delay in payment, including but not limited to:
 - (i) interest from the date of electing an option to the date of payment of the Immediate Pension Entitlement;

16

- (b) the value of the Immediate Pension Entitlements has decreased over the period of delay from the date of entitlement to the date of payment, including but not limited to:
 - (i) a decrease in the commuted value of Transfer Values between the date of discharge to the date of payment; and
 - (ii) a decrease in the value of Immediate Annuities, Deferred Annuities and Annual Allowances between the date of discharge to the date of payment.
- (c) the Class Members were discharged prematurely and gave up active employment income on the representations made by Canada that Immediate Pension Entitlements would be paid in a prompt and timely manner after discharge;
- (d) the Class Members were required to take on unnecessary debts, loans, late payment penalties and interest payments; and
- (e) pain, suffering and the loss of enjoyment of life, including but not limited to, the inability to secure the necessities of life such as shelter, food and medication which the pension income was intended to secure.
